Department of Defense
Operation and Financial Support for Military Museums
Fiscal Year 2009 Annual Report to Congress

Office of the Deputy Under Secretary of Defense
Installations and Environment

Executive Summary

Military museums are a valuable resource for current and future generations. The 93 Department of Defense (DoD) museums contain some of the finest artifacts and collections depicting our Nation's colorful military history. These artifacts and collections instruct and inspire DoD personnel and encourage and maintain the American public's support for its military. Military museum facilities collect and display memorabilia, artifacts, ceremonial gifts, uniforms, and flags from the history of the Military Departments, military campaigns, and conflicts. These museums are inspirational, providing unique educational opportunities and important lessons for our servicemen and servicewomen and their families.

DoD museums are often the most accessible and popular link between the public and military history. Almost all of the museums are located on installations. Even with today's increased security requirements, DoD historical museums are some of the most popular attractions in our country. In fiscal year (FY) 2009, DoD museums hosted over 8.1 million people, an increase of almost 400,000 visitors from FY2008. A detailed listing of visitor information is located in Appendix D, FY2009 Additional Information on Military Museums.

Each Military Service sets museum policies and requirements applicable to each museum's individual training, collection, display, and mission needs. By establishing funding priorities, updating policy as needed, and implementing procedures to improve management processes, the Military Services increase efficiency while balancing mission needs, training requirements, and conservation.

Educational Partnerships

The Navy, Air Force, and Marine Corps each have a national museum responsible for the overall history of their respective Military Service. The Army is in the process of planning for its national museum, which will serve as the capstone of the Army Museum System. Other DoD museums focus on specific elements of military history. Many military museums are located near training centers, libraries, and educational facilities, all of which offer students and trainees hands-on access to historic artifacts and records thereby enriching their educational experience. A detailed listing of military museum educational partnerships is located in Appendix D, FY2009 Additional Information on Military Museums.

Facilities

While museums store and display the Nation's valuable historic collections, the facilities themselves are chosen if they suitably meet the management needs of DoD personnel and the public. Military Museums use several types of facilities to house collections, including historic buildings, new buildings, and retrofitted facilities. Each Military Service carefully evaluates display needs to determine the appropriate type of facility suited for housing historic collections. The Military Services currently use 285 buildings for museum purposes. A detailed listing of museum building descriptions is located in Appendix A, FY2009 Descriptions of Military Museums.

Thirty-four DoD museums (37 percent) have facilities that are on, or are eligible for, the National Register of Historic Places, and 23 are contributing elements of a National Historic Landmark District or are designated as a National Historic Landmark.

Funding

Each Military Service ensures that the individual museum directors have investment strategies for the effective and efficient use of funds. DoD receives funding for museums primarily through Operation and Maintenance, Military Personnel, Military Construction, and Procurement appropriations. In FY2009, DoD invested

approximately \$94 million in appropriated funds to manage and maintain military museums. Detailed funding information for individual museums is located in Appendix B, FY2009 Funding for Military Museums.

In FY2009, the Military Services supplemented this investment with approximately \$11 million in non-appropriated funds and other sources, including donations/gifts and proceeds from gift shop sales. Appendix B, FY2009 Funding for Military Museums, includes detailed information about this supplemental income.

Personnel

Military museums employ both full-time and part-time civilian employees, as well as members of the U.S. Armed Forces. The 93 military museums employ 510 full-time civilians, 13 part-time civilians, 55 full-time members of the Armed Forces, and 7 part-time members of the Armed Forces. Employee roles vary among museums, but most museums have a museum director or a museum curator. Detailed information on museum employees and management structure is located in Appendix C, FY2009 Management Structure for Military Museums.

In addition to paid employees, Military Services extensively use volunteers to meet their staffing needs. In FY2009, military museums had the benefit of 48 full-time volunteers and 2,737 part-time volunteers.

Detailed information regarding volunteer museum employees is located in Appendix D, FY2009 Additional Information on Military Museums.

Collections Management

Museums play an integral role in documenting significant events. Events join the ranks of history every day, as experiences are documented and notable articles are preserved. Consequently, museum collections grow and change as relevant artifacts are discovered and acquired. Each Military Service manages an established process to review all acquisitions, verify that the museums are collecting for mission-related purposes, and ensure historic property accountability. In addition, the museums adhere to a strict acquisition process based on an object's significance and condition, museum collection needs, ethics and regulations, rarity of the objects, and maintenance cost. Military museums acquire historic collections through capture on the field of battle, donation by private individuals, purchase with appropriated funds, exchange under Title 10 U.S.C. 2572, and transfer from other government agencies.

Each Military Service has also established specific procedures for deaccessioning which allows for the removal of inappropriate, damaged, or duplicate items from a collection. Deaccessioning is necessary for the viability, consistency, and proper management of the collections

and ensures that the collections remain relevant to the museum's mission and visitors.

Conclusion

Military museums are an integral part of our Nation's history. DoD remains committed to improving museum management, exercising best professional practices, and increasing operational efficiency to ensure that these valuable resources are available to members of the Armed Forces, their families, retirees, and the public for years to come.

Introduction

Military museums are instrumental in preserving our Nation's heritage. DoD currently manages 93 military museums—61 Army, 12 Navy, 5 Marine Corps, 13 Air Force, and 2 other Defense Agency—encompassing 285 buildings. While the areas of interest vary among museums, the Congressionally-directed mission of each museum is to preserve and display the military history of the United States. Many of these museums are located in close proximity to military schools, complementing training and educational activities while inspiring our Nation's Service members.

DoD understands the value of these museums to the public and to the warfighter. DoD museums not only preserve the history of the U.S. Armed Forces, but also provide important lessons for planning and executing new mission activities, and provide resources for programming and scientific scholarly research. DoD makes every effort to ensure that museum management policies and activities promote efficiency, while maintaining the integrity and educational value of these museums.

The Secretaries of the Military Departments are legally obligated by the 1906 Antiquities Act to provide

stewardship for items of historic or scientific interest within their respective departments. The 1935 Historic Preservation Act and subsequent amendments expanded these responsibilities by establishing national policy to preserve historic objects of national significance “for the inspiration and benefit of the people of the United States.” Additionally, Federal agencies “shall provide leadership in preserving, restoring, and maintaining the historic and cultural environment of the nation.” Additional information on Federal laws and DoD regulations is summarized in Appendix E, Selected Laws, Regulations, and Guidelines relating to Cultural Resource Management and Military Museum Operations.

The Secretaries fulfill these responsibilities with national museums and a limited system of local museums and historical centers. Section 489 of Title 10, United States Code, requires the Secretary of Defense to submit a report identifying all military museums that are:

- Operated by the Secretary of Defense or the Secretary of a military department
- Otherwise supported using funds appropriated to DoD

- Located on property under the jurisdiction of the DoD, although neither operated by DoD nor supported using funds appropriated to the Department.
- The Department will also provide required information on support priorities and individual museums, including:
- The purpose and functions of each museum (See Appendix A)
- A description of the facilities dedicated to the museum (See Appendix A)
- The budgeting process and funding allocations (See Appendix B)
- Museum management structure and acquisitions (See Appendix C)
- Museum staffing. (See Appendix D)

The Purpose of Museums

Military museums contain some of the finest examples of artifacts and collections depicting our Nation's colorful military history, which instruct and inspire DoD personnel, and encourage and maintain the American public's support for its military.

The Navy, Marine Corps, and Air Force each have a national museum that is responsible for the overall history of the Military Service; the Army is in the process of planning for its National Museum:

- National Museum of the United States Army (Fort Belvoir, Virginia)¹
- National Museum of the United States Navy (Washington Navy Yard, District of Columbia)
- National Museum of the United States Marine Corps (Marine Corps Base Quantico, Virginia)
- National Museum of the United States Air Force (Wright-Patterson Air Force Base, Ohio)

Additional Defense Agency museums include the National Museum of Health and Medicine of the

¹ The Army is scheduled to complete construction of the National Museum of the United States Army in 2013.

Armed Forces Institute of Pathology (Walter Reed Army Medical Center, District of Columbia) and the National Cryptologic Museum of the National Security Agency (Fort Meade, Maryland).

Other DoD museums, heritage centers, and displays focus on specific elements of military history. Some facilities highlight the history of a unit or a particular branch of Military Service. A detailed listing of the purposes and functions of the museums by state and Military Department is located in Appendix A, FY2009 Descriptions of Military Museums.

Military museums are an important asset to DoD personnel, their families, retirees, recruits, and the general public. Museums provide a history of the U.S. military and offer visitors an important glimpse into their cultural heritage. DoD museums are the most accessible link between the public and military history.

Museums play a critical role in professional military education and training programs. Many military museums are located near training schools, libraries, and educational facilities. For example, the West Point Museum and the U.S. Naval Academy Museum are co-located

with their respective Service's Academies, the United States Military Academy, and United States Naval Academy. These museums support cadet/midshipman academic, military, and cultural training. West Point Museum collections encompass the history of West Point and the United States Military Academy, the evolution of warfare, and the development of the American Armed Forces. The U.S. Naval Academy Museum mission is to maintain and preserve the physical reminders of the heritage and history of the Naval Academy and its graduates in order to develop midshipmen as naval officers, to educate visitors on the contributions of the U.S. Naval Academy and its graduates, and to inspire young people to seek a career of service to the nation.

DoD's goal is to provide the best possible training to the Military Service members who protect the nation's security. The proximity of museums to training facilities provides an opportunity for U.S. servicemen and servicewomen to study realistic materials likely to be encountered in current military campaigns. By allowing U.S. troops to examine munitions, technologies, and strategies they may encounter in the field, museums provide an excellent and crucial element of training.

Military museums are among the most comprehensive and accessible showcases of the rich history of the United States military. By recruiting and training the

warfighter, capturing the imagination of our youth, educating and involving the community, and providing a legacy of the Military Service members who defend our nation, military museums play a crucial role in our Nation's past, present, and future.

Museum Policy

DoD recognizes that each Military Service has different training, collection, and display needs. The individual Military Services set efficient policies and requirements that are applicable to mission needs and available resources.

Army

The U.S. Army's museums and historic collections serve as a valuable repository for defense technology and as teaching tools, all facets of the military establishment use these tools are used on a continuing basis.

The Assistant Secretary of the Army for Manpower and Reserve Affairs and the Administrative Assistant to the Secretary of the Army provide direction to the U.S. Army Chief of Military History, who executes program management, guidance, and regulatory oversight for the Army's historic collections. Army Regulation 870-20, Army Museums, Historical Artifacts, and Art ([http://docs.usapa.belvoir.army.mil/jw2/xmldemo/r870 20/cover.asp](http://docs.usapa.belvoir.army.mil/jw2/xmldemo/r870%20cover.asp)), includes detailed policy and requirements for

61 active Army and Army Reserve museum activities. In addition, the Army publishes a guide to its museums and museum artifacts, featured in the book *American Military History*. The Reserve Officer Training Course Program and other educational instructions use this guide as a primary resource.

The Army Museum Certification Program and a Command Supply Discipline Program, managed by the direction of the Director of Army Museums, ensure that Army historical facilities meet the highest museum standards and maintain the long-term preservation and accountability of the Army's historic artifacts. The Army holds their historical collections at individual Army museums under the daily control of their respective Museum Directors, who oversee the collections in a custodial role for the Chief of Military History, Dr. Jeffrey J. Clarke. The Chief of Military History reviews and provides guidance for educational training programs conducted at each museum that are designed to meet the current training needs of Army personnel, with an emphasis on collections utilization for "lessons learned," the influence of material development on the changing art of war, doctrine, and tactics. This allows the Army to efficiently preserve its cultural heritage resources while ensuring that these assets form a valuable component for training U.S. Armed Forces.

The Assistant Secretary of the Army (Installations and Environment) is now responsible for the construction of the National Museum of the United States Army. In FY2009, the National Infantry Museum at Fort Benning re-opened in a new 85,000 square foot facility complete with a IMAX theater and the U.S. Army Field Artillery Museum moved to a new facility at Ft. Sill. As a result of Base Realignment and Closure (BRAC) and Army stationing decisions, the 3d Cavalry Museum will re-open in a new 5,600 square foot facility in February 2010 at Ft. Hood and the 1st Armored Division relocated its collections to Ft. Bliss, TX, and will re-open in late 2010. The Air Defense Artillery Museum, Ft. Bliss has temporarily closed pending relocation to Ft. Sill; the 4th Infantry Division Museum at Ft. Hood has temporarily closed pending a new facility at Ft. Carson, Co; and the Old Guard Museum at Ft. Myer, VA has temporarily closed pending renovation of a new facility on Ft. Myer. In 2009, the Army began construction of a 105,000 square foot Army Museum System Art and Artifact Museum Support Center at Fort Belvoir, VA, which will open in late 2010. The Army continues to improve museum management techniques to make the most effective and efficient use of historic collections. The Army is currently making plans to replace its legacy facilities with modern museum structures between FY2012 and FY2017.

Navy

The Navy structures their 12 museums to represent specific parts of the Navy's history and heritage from research and engineering, operations, ships, aviation, and submarines, to civil engineering. These museums provide stewardship, accountability, and preservation of Navy collections and document the history of these sectors of national defense. Navy museums provide a focused platform for research, study, and display. DoD personnel and the public are able to access museum collections for developing policy and doctrine, training and education, developing new, innovative technologies, and evoking patriotic remembrances of the Nation's history.

In 2005, the Chief of Naval Operations directed the functional realignment of all Navy museums to the Director of Naval History. All policy and financial decisions were shifted to a consolidated single source, the Navy Museums Division of the Naval History and Heritage Command (NHHC), for enhanced visibility, oversight, and execution of museum programs. RDML (Ret.) Jay Deloach is the Director of Naval History and is the Director of NHHC.

The Navy is in the process of revising its museum policy to reflect changes initiated by the consolidation of museums to NHHC. The Navy is revising Secretary of the Navy Instruction 5755.1A, Navy Museums, to

provide guidance for Navy museum management and decision-making. This instruction guides the museum requirements, organizational establishment, facilities design and construction, and oversight of Navy museums. Individual Navy museums and their holdings are under the daily control of the individual museum director and staff.

Marine Corps

The National Museum of the Marine Corps, located at Marine Corps Base Quantico, along with four Command Museums, is guided by Marine Corps Order 5750.1H, Manual for the Marine Corps Historical Program. Specifically, Chapter 3 details how the museums collect and preserve objects related to the history of the Corps. In late FY2005, the Marine Corps established two separate units, the History Division and the National Museum of the Marine Corps; each unit reports to the President, Marine Corps University. Marine Corps Order 5750.1H was rewritten in 2007 to reflect the reorganization and the opening of the National Museum in November 2006. The order assigns responsibilities and establishes policies for recording and maintaining material history collections of the Marine Corps. The Director of the National Museum of the Marine Corps, Ms. Lin Ezell, is the principal staff officer for museum matters and offers guidance, advice,

standards, and access to staff expertise and the National Collection to the command museums.

The National Museum of the Marine Corps's mission is to preserve and exhibit the material history of the U.S. Marine Corps; honor the commitment, accomplishments, and sacrifices of Marines; support recruitment, training, education, and retention of Marines; and provide the public with a venue for the exploration of Marine Corps history. Three additional galleries, covering the periods from 1775 through World War I, will open in June 2010. The Marine Corps funded the architectural design of the building's second phase, another 80,000 square feet, which the Marine Corps Heritage Foundation has pledged to support. Construction of the second phase is scheduled to commence in 2012. At Miramar, the Flying Leatherneck Aviation Museum Historical Foundation continues the planning for a new building for the Museum, which in 2008 acquired and restored two significant aircraft, an AV-8C Harrier and a T-34 trainer. The Flying Leathernecks opened a new library room in 2009, which focuses on Marine Corps aviation. The Marine Corps Recruit Depot Command Museum at San Diego created a new community room, featuring a catering kitchen, theater, and space for lectures, workshops, and community events. It is scheduled

to open in the Spring of 2010.

Air Force

The Air Force preserves and publicly exhibits the material culture of the U.S. Air Force at its National Museum, 12 field museums, and through other field activities. The Air Force is a proud leader in the museum community through the application and development of advanced techniques in museum practices and the restoration and innovative exhibition of artifacts. This success begins with the support and quality operation of the National Museum of the United States Air Force (NMUSAF). The NMUSAF has a professionally-qualified staff that is responsible for the management and stewardship of the Air Force historic collection. The NMUSAF's reaccreditation by the American Association of Museums in 2008 showed recognition and validation. Other NMUSAF activities include overall management of the historic collection, professional oversight of U. S. Air Force field museums, heritage centers, historic holdings, and airparks, and an active loan program to civilian museums and other qualified organizations.

Air Force Instruction 84-103, U.S. Air Force Heritage Program (<http://www.e-publishing.af.mil/shared/media/epubs/AFI84-103.pdf>), is the primary manage-

ment guidance for Air Force museums and other field activities. The Director of the NMUSAF, Maj. Gen. (Ret.) Charles Metcalf, provides leadership to National Museum staff for the overall management of the collections and the facility, and is responsible for professional oversight of field activities and programs.

In recent years, the Air Force has developed an agile and responsive management structure to provide guidance for the NMUSAF and the heritage program. The key element of this structure is the U.S. Air Force Heritage Program Board of Directors, which was founded at the request of the Secretary of the Air Force. The Board was created to give strategic direction and broad programmatic policy guidance, to provide for the optimum management of the NMUSAF, and to report on a regular basis to the Secretary of the Air Force on the status of the program.

Visitors

DoD historical museums are some of the most popular attractions in our country. Military museums host over 8.1 million visitors each year. Museums such as the National Museum of Naval Aviation in Florida; U.S. Army Museum, Hawaii; NMUSAF, Ohio; and the National Museum of the Marine Corps, Virginia, are among the most widely-visited facilities in those states, encouraging both tourism and an interest in military history.

President Bush dedicated the National Museum of the Marine Corps, which opened to the public in November 2006. During its first 22 months, the National Museum of the Marine Corps welcomed more than one million visitors. The Command Museums, located at Parris Island Recruit Depot, Camp Pendleton, Marine Corps Station Miramar, and San Diego Recruit Department attracted some 316,000 people. Visitor data captured at the National Museum, in part through the American Association for State and Local History, revealed that 55 percent of visitors lived within 120 miles of the Museum, the male/female visitor ratio was 64/36 percent, and that 41 percent of all visitors were 55 years of age and older. Some 28 percent of adult visitors brought children with them. Visitors gave the Museum an overall quality score of 9.5 of a possible 10, as compared to an average score of 8.9 of all museums who have participated in the survey.

The U.S. Army Museum system entertained more than two million visitors in its various museums in FY2009. The Army also uses these museums to train, educate, and inspire U.S. soldiers. For example, every soldier inducted into the Quartermaster Branch did so in the foyer of the Quartermaster Museum in Ft. Lee, Virginia. Similarly, the division museum introduces the history and heritage of newly arriving soldiers in each Army division to their unit.

NMUSAF received over 1.2 million visitors in FY2009, and is ranked by the state government as the most popular and well-attended non-commercial tourist destination in Ohio. The museum, located near Dayton, Ohio on Wright-Patterson Air Force Base, hosts a variety of educational and historical programs for children, adults, teachers, and community groups. In total, over 137,244 teachers, students, youth groups, families, and adults participated in 1,174 educational programs in FY2009. The museum also offers a variety of public tours and programs, including the docent-led U.S. Air Force Heritage Tour and the Behind the Scenes Tour, which is an in-depth look at the Restoration Division where the iconic B-17s “Memphis Belle” and “The Swoose” are currently being restored. Senior adults also participated in programs focusing on aviation history programs through the Institute for Learning in Retirement sponsored through the Continuing Education Department of the University of Dayton.

DoD museums provide unique opportunities for returning service members to share their experiences of battle, even when they involve injury. The National Museum of Health and Medicine at Walter Reed Army Medical Center’s exhibition of materials from the hospital facilities in Balad, Iraq evoke commentary that is both a tribute to the dedication of DoD medical personnel, as well as a reminder of the advances of military medicine.

One can also trace the history of forensics and learn how deeply the nation is committed to the identification of every fallen service member. The scientific work included in this exhibit also represents the museum’s behind the scenes scientific work.

Additional visitor information summarized by state, Military Department, and museum is located in Appendix D, FY2009 Additional Information on Military Museums.

Museum Facilities

Military museum facilities store and display memorabilia, artifacts, ceremonial gifts, uniforms, and flags from the history of the Military Departments, military campaigns, and conflicts.

There are several types of facilities used to house military museum collections, including historic buildings, new buildings, and retrofitted facilities. Each Military Service carefully evaluates display needs to determine the appropriate type of facility for housing historic collections. In some cases, historical preservation and museum needs are complementary. By using historic buildings to house military artifact collections, DoD is adaptively reusing an existing building. A detailed listing of museum building descriptions is located in Appendix A, FY2009 Descriptions of Military Museums.

The National Register of Historic Places, authorized under the National Historic Preservation Act of 1966, is part of a national program to coordinate and support public and private efforts to identify, evaluate, and protect our historical and archeological resources. Properties listed in the National Register of Historic Places include districts, sites, buildings, structures, and objects

that are significant to American history, architecture, archeology, engineering, and culture. The National Park Service administers the National Register. Thirty-four DoD museums have facilities that are on or are eligible for the National Register of Historic Places.

National Historic Landmarks are nationally significant historic places designated by the Secretary of the Interior because they possess exceptional value or quality in illustrating or interpreting the heritage of the United States. All National Historic Landmarks are included in the National Register. Today, fewer than 2,500 historic places bear this national distinction. Twenty-three DoD museum buildings are contributing elements of a National Historic Landmark District or are designated as National Historic Landmarks. DoD protects and preserves these important historical resources while maintaining access to them for educational and training purposes.

Museum Funding

The museum budget process begins with the identification of funding requirements at the installation level. After the museum has identified the requirements for appropriated funding support, the museum provides the requirements to the installation Comptroller. Museum funding requirements compete against other funding necessities at the installation and are adjusted based on the competing requirements and projected available resources. This process then continues up the chain of command through the Major Command structure for each Military Service.

The Military Services review the requirements of the Major Commands and make final funding decisions. DoD receives appropriated funding for museums primarily through Operation and Maintenance, Military Personnel, Military Construction, and Procurement appropriations.

In addition to the annual appropriations process, many DoD museums are associated with support organizations that provide funding for some of the museum requirements. These support organizations also may provide significant staff support through volunteer workers. While eligible for Military Construction funds,

private sector financial support provides for each of the Military Service's capital needs (i.e., current construction projects).

The Marine Corps Heritage Foundation, a 501(c)(3) organization, continued supporting the National Museum of the Marine Corps during FY2009, having previously raised \$60 million with which to construct the Museum. Design of a nearby chapel was completed by the Foundation in FY2008 and opened to the public in October 2009. The Foundation also provided funding for interns, a teacher-in-residence program, collections and exhibits, and other programmatic needs, for a grand total of \$7,815,342 in FY2009. A series of operational agreements guides the relationship between the Museum and the Foundation.

DoD relies on adequate museum funding to ensure that educational and training resources are available to the warfighter for current missions and to the public. In FY2009, the Department spent approximately \$94 million to manage and maintain military museums. Non-DoD sources contributed an additional \$11 million, such as museum foundations, local heritage and historical organizations, and proceeds from gift shop sales.

Table 1 shows museum spending by Service in FY2009. Additional funding information for individual museums is located in Appendix B, FY2009 Funding for Military Museums.

Table 1: FY2009 Museum Spending

Military Service	Millions of Dollars
Army	\$39.7
Navy	\$16.9
Marine Corps	\$12.3
Air Force	\$22.3
Other Defense Agencies	\$2.7
Non-DoD Sources	\$11.2
Total	\$105.1

Funding Priorities

Each Military Department must make the most efficient use of available funds. By establishing funding priorities and implementing procedures to improve management processes, Military Services ensure that museums continue to meet the needs of U.S. servicemen and service-women, their families, and the public.

Army

The U.S. Army's historical collections contain approximately one million objects. The Army's Chief of Military History provides guidance, establishes processes, and is accountable for all museum operations, including museum design and construction, facility requirements,

conservation, hazardous material abatement, and training museum professionals.

Prior to 2002, individual Army Museums were funded and resourced at the local level. In 2003, the Chief of Military History, under the leadership of the Director, Army Staff, implemented centralized funding for all Army museums. The Army instituted centralized funding to apply better business practices, capture true costs, accurately evaluate future requirements, and identify cost-saving measures. The Director of Army Museums continues to centralize contracts for museum supplies, products, and services to save additional funds.

Navy

The U.S. Navy has made a significant effort to improve the efficiency of museum operations. The Navy conducts an annual, zero-based budget review using the capabilities-based budgeting process to identify, validate, and prioritize program requirements. Additional resource requests for museums undergo a rigorous validation and prioritization process. Museum benefit analyses are developed and calculated for each museum. Individual museums develop specific requirements, which are validated and prioritized locally, regionally, and finally at the headquarters level. This review process results in an efficient application of resources to programs that help U.S. troops meet mission objectives.

The realignment in FY2006 of all Navy museums under the Director of Naval History brings best business practices to bear across the Navy museum system. This shift provides more effective management of operations in the areas of manpower, collections preservation, accountability, exhibitions, and outreach, while continuing to encourage local foundation support. The transition involves all museum directors, their commanders, and constituencies. This change encouraged the sharing and coordination of resources and efforts across the Navy museum system. The end result yields a more uniform decision-making process with improved efficiency.

Marine Corps

The U.S. Marine Corps relies on adequate personnel, budgetary, and facilities support to establish and maintain the National Museum of the Marine Corps and the Command Museums. Museums carefully and efficiently manage assets. An associated installation supports Each Marine Corps Command Museum. Individual museums compete with operational priorities for personnel and funds. Because museum funding is limited, the Marine Corps takes every opportunity to refine staff skills and improve efficiency. Museums also coordinate with local heritage and historical organizations for additional non-Federal support.

An annual budget call requires each museum to lay out

current and future resource needs and include a fiscal plan in the Program Objective Memorandum (POM). The museums' strategic plans reflect these needs. Museum submissions may be divided into categories to include planned exhibits, travel and training, printing and reproduction, furnishings and equipment, support agreements/reimbursables, contracts for work outside the normal routine (e.g., restoration/conservation of artifacts), and supplies and materials. Within these categories, each requirement is prioritized by funding category, amount, and justification (e.g. indispensable, critical, enhancing). Commands institute planning councils, financial management boards, and working groups provide guidance; refine, prioritize, and monitor the consumption of resources; and make resource allocation recommendations and decisions. POM initiatives are developed, prioritized, and forwarded to Headquarters Marine Corps, where they are reviewed, briefed at the Program Evaluation Group, and ranked by the Program Working Group and Program Review Group.

Air Force

The NMUSAF develops their budget based on the broad goals and guidance provided by the U.S. Air Force Heritage Program Board of Directors and the Strategic Plan. The Air Force Chief of Staff has directed that the Commander of the Air Force Material Command provide for the professional staffing and operation

of the NMUSAF. The NMUSAF budget competes with other base and major command priorities. While eligible for military construction funding, the NMUSAF has addressed capital needs through public support via the Air Force Museum Foundation (AFMF), an Internal Revenue Code § 501(c)(3) organization. The AFMF is currently involved in a capital development campaign to fund an additional 200,000 square foot display building.

Non-Federal Support

In addition to the efficient use of DoD resources, military museums rely heavily on non-Federal

support, volunteers, and partnerships to maintain the successful operations of museums. The Department works with other historical organizations, educational groups, and volunteers to staff exhibits, care for artifacts, run museum stores, and help fund programs to keep these historical resources accessible to the public. Each year, volunteers and organizational efforts provide millions of dollars in cost savings to military museums. In FY2009, 130 museum partnerships with non-DoD entities provided supplemental funding for museum efforts. These efforts highlight the multi-lateral importance of sustaining military museums for both DoD personnel and the public. Additional information on

these valuable support roles is located in Appendix D, FY2009 Additional Information on Military Museums.

Collections Management

Museums play an integral role in documenting significant events. Events make history every day, as experiences are documented and notable articles are preserved. Museum collections grow and change with these events and relevant artifacts are discovered and added to collections in a process called accession. Deaccession allows for the removal of inappropriate, damaged, or duplicate items from a collection. Deaccessioning is a necessity for the viability, consistency, and proper management of the collections and ensures that they remain relevant to the museum's mission and visitors.

Army

The Director of Army Museums, guided by a centralized collections policy, oversees a committee of museum professionals who review all acquisitions to verify that Army museums are collecting for mission-related purposes and to ensure historical property accountability. Historical collections are acquired through capture on the field of battle, donation by private individuals, designation and issue by the Army, purchase with appropriated funds, exchange under Title 10 U.S.C. 2572, and transfer from other government agencies.

Navy

The Navy has managed museums since 1814, when Congress directed that all captured Naval flags be sent to the Navy Department in Washington, D.C. The management and programming for museums has changed significantly. Over the past several years, the Navy has instituted initiatives centered on furthering this journey of historical discovery and preserving Naval history.

Marine Corps

The Marine Corps acquires historic objects by gift, transfer, purchase, exchange, or from field recovery operations. A collections rationale guides the curators of the National Museum of the Marine Corps as they determine what should and should not be added to the permanent collections. The Marine Corps ensures that resources are used in the most efficient manner possible by adhering to a strict acquisition process based on historical significance, the condition of objects, the needs of museum collections, ethics and regulations, rarity of the objects, and cost maintenance.

The Marine Corps acquires objects in accordance with

Marine Corps Order P5800.16 and Secretary of the Navy Instruction 4001.2G. Deaccessioning and disposal of excess property is accomplished in accordance with DoD 4160.21-M, Defense Material Disposition Manual, and other applicable Federal regulations. All commands holding historical property must notify the National Museum of the Marine Corps of the availability of items and obtain authorization prior to disposing of any historical property. The Marine Corps permanently removes deaccessioned items from its collection. Records on the property contain documentation on the reason for the deaccession, approval from the Director of the Museum, and the date and method of deaccession.

The Museum's staff are guided in their duties by accepted museum practices (American Association of Museums), Joint Ethics Regulations, U.S. Codes and Codes of Federal Regulations, Secretary of the Navy Instructions, and international treaties and conventions. The Marine Corps continuously implements "lessons learned" into its activities and strives to manage historical collections in the most efficient manner possible. During 2008-09, the staffs of the four Marine Corps museums continued to upgrade their computer hardware and completed their training on the updated collections information system software. The National Museum of the Marine Corps launched its effort to

clear up its backlog of collections inventory and data entry, with completion expected by the end of 2010.

Air Force

The Air Force uses a central collections plan to manage historical collections to meet both military and public needs, reflecting the overall guidance and policy established by the U.S. Air Force Heritage Program Board of Directors. The goal of the collections plan is to refine and expand the collections in a uniform and predetermined way. The plan facilitates management decisions so that they are developed and implemented in the most effective and informed manner possible. The NMUSAF uses its central collection plan to manage its collections, focus on areas that support the mission, and ensure adequate resources for acquisition and care. Staff, facility space, and financial resources to support collections are limited. By articulating recommendations, assumptions, guidelines, and areas of special emphasis, the collections plan provides the framework within which the NMUSAF staff make daily collection decisions.

The effective management of the national historic collection, including the accession and deaccession of items, results in the efficient use of staff and facilities, and rotation of engaging and interpretive exhibits for military and civilian audiences. Major Command and installation-level museums have limited authorization

and can only access items relevant to their mission and ability to curate. All local accessions become part of the national historic collection of the U.S. Air Force. Local activities are not authorized to deaccession historical property. Deaccessioning remains the sole responsibility of the NMUSAF.

The Air Force closely reviews items for relevance to the NMUSAF heritage, research purposes, and training needs. All items that do not meet the Air Force's criteria of relevance or purpose are reviewed by the NMUSAF Deaccession Committee. This process allows the Air Force to efficiently manage its funding and reduce costs where possible.

The NMUSAF uses a modern bar-coding artifact management data system, which efficiently tracks artifact data, locations, and images on a worldwide basis. This system provides for the maintenance of positive inventory controls with the most efficient use of manpower. The past reduction in the number of field museums to heritage center status has demonstrated lower resource requirements needed for collections management. The Air Force anticipates additional future conversions of field museums to heritage center status. USAF Heritage Centers are more modest in size, limited in capabilities,

and neither manned nor resourced at professional levels. The Air Force currently has eight heritage centers, two of which are downsized former museums.

Collections of this importance and magnitude require appropriate management. As discussed previously in this report, the Military Services have developed policies to preserve historic objects, provide the maximum benefits of museum collections to DoD personnel and the public, and ensure the efficient use of resources.

Other DoD Museums

The National Museum of Health and Medicine supports the historical interpretation of American medicine and the unique advances rendered by military medicine. The museum also serves as a significant research institution for the Department and to the Nation.

Museum Employees

Military museums employ both full-time and part-time civilian employees, as well as members of the U.S. Armed Forces. The 93 military museums employ 510 full-time civilians, 13 part-time civilians, 55 full-time members of the Armed Forces, and 7 part-time members of the Armed Forces. Employee roles vary between museums, but most museums have a museum director or a museum curator. Most individual museums and their collections/holdings are under the daily control of the museum director and staff.

Staff roles include museum technicians, exhibit specialists, museum specialists, museum aids, operations managers, historians, museum archivists, registrars, restoration posts, secretaries, personnel support, curator specialists, and public affairs specialists. Support staff assist with museum operations, including developing the museum's operational budget, accessioning and deaccessioning artifacts, developing educational programs and exhibit designs, and managing personnel. Additional information on museum employees and management structure is located in Appendix C, FY2009 Management Structure for Military Museums.

Looking Forward

The landscape of national security has changed significantly since the events of September 11, 2001. For security reasons, new museums need to account for force protection and will likely be located outside of installation properties. DoD is evaluating and considering the closure of several museums and heritage centers due to public access constraints resulting from the need for increased base security.

BRAC decisions also affect military museums. The historical collections of these museums will be evaluated and artifacts may transfer to other museums to ensure the continuity and completeness of the historical record. These closures will impact local communities who rely on these museums for education, public programming, and tourism.

Military museums are an integral part of our Nation's history. DoD will continue to find ways to improve museum management and ensure that these valuable resources are available to the public and U.S. troops for many years to come.

Appendix A

FY2009 Descriptions of Military Museums

Appendix A contains descriptive information about each military museum, including its purpose and function, justification, building description (including size and number), and designation as a National Historic Landmark or on the National Register of Historic Places.

The primary purpose of all museums is to preserve historic objects of national significance “for the inspiration and benefit of the people of the United States,” as stated in the 1935 Historic Preservation Act. The Navy, Marine Corps, and Air Force each have a national museum responsible for the overall history of the Military Service. The Army is in the process of planning for its National Museum, which will serve as the capstone of the Army Museum System. Other DoD museums, heritage centers, and displays focus on specific elements of military history. Some facilities highlight the history of a unit or a particular branch of military service.

Several types of facilities are used to house military museum collections, including historic buildings,

new buildings, and retrofitted facilities. Each Military Service carefully evaluates display needs to determine the appropriate type of facility for housing historical collections. In some cases, historic preservation and museum needs are complementary. Thirty-four DoD museums have facilities that are on or are eligible for the National Register of Historic Places. Twenty-three DoD museums include buildings designated as National Historic Landmarks or that are contributing elements of a National Historic Landmark District. National Historic Landmarks are nationally significant historic places designated by the Secretary of the Interior because they possess exceptional value or quality in illustrating or interpreting the heritage of the United States.

Army

U.S. Army Aviation Museum Fort Rucker www.armyavnmuseum.org			3	18,500	No	No
The mission of the U.S. Army Aviation Museum is to collect, preserve, exhibit, and interpret historically significant property related to the history of U.S. Army aviation and the development of the Aviation Branch from 1908 to the present. In fulfilling this mission, the museum preserves appropriate U.S. Army aviation artifacts to educate military personnel and the public regarding the heritage, traditions, and history of U.S. Army aviation.	The U.S. Army Aviation Museum is the responsible steward of the Army's heritage assets specific to aviation in the Army that includes accountability, preservation, and security of over 2,500 historical artifacts. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The museum also preserves the institutional history of aviation in the Army and promotes esprit de corps for current and future generations of Soldiers.	The museum is located in Building 6000 and was "purpose-built" constructed and designed as a museum. Construction began in 1988 and the facility was completed and opened in 1990. The building is steel frame construction on poured concrete with insulated enameled steel panel walls, and has a nine degree cambered flat roof. The museum is adding an additional 11,000 sq ft of open storage for its collection in 2009.

Army

Fort Huachuca Museum Fort Huachuca www.army.mil/CMH/Museums/links.htm			2	11,885	Yes	Yes
The mission of the Fort Huachuca Museum is to collect, preserve, exhibit, and interpret historically significant property related to the history of Fort Huachuca, beginning with the Mexican War (1846), as well as of the military in the Southwest. The extensive collection of the Fort Huachuca Museum includes over 4,000 weapons, accouterments, equipment, and documents that are used to tell the story of this historic installation and the U.S. Army in the American Southwest. Guided tours, public information program, gift shop, traveling exhibitions, lectures, reference services, and educational programs for elementary schools.	The Fort Huachuca Museum is the responsible steward of the Army's heritage assets specific to Fort Huachuca that includes accountability, preservation, and security of 1,989 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Fort Huachuca and promotes esprit de corps for current and future generations of Soldiers.	The museum is housed in a building that is on the National Register of Historic Places.				

U.S. Army Military Intelligence Historical Holding Fort Huachuca www.army.mil/CMH/Museums/links.htm			1	6,644	Yes	Yes
The mission of the U.S. Army Military Intelligence Corps Historical Holding is to collect, preserve, interpret, and exhibit objects that are related to the history of the Military Intelligence Corps and its predecessors, which include the Corps of Intelligence Police, Counter Intelligence Corps, and the Army Security Agency.	The U.S. Army Military Intelligence Corps Historical Holding addresses key events involving the Army's use of intelligence operations that occurred prior to the activation of formal intelligence organization. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community.	The museum occupies a 6,644 sq ft building.

U.S. Army Yuma Proving Ground Heritage Center						
Yuma Proving Ground www.yuma.army.mil/garrison/sites/directorates/ptms.asp			2	18,640	No	No
The U.S. Army Yuma Proving Ground Heritage Center has been established to depict the military history of Yuma Proving Ground from its inception in 1942 as Camp Laguna to Yuma Test Branch, Yuma Test Station and the present day Yuma Proving Ground with its role in the development of the "21st Century Soldier". The purpose of the Heritage Center is to identify, collect, research, and preserve historically significant properties and maintain them as usable resources for scholars and other interested individuals.	The Yuma Proving Ground Heritage Center is the responsible steward of the Army's heritage assets specific to Yuma Proving Ground that includes accountability, preservation, and security of historical artifacts. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The center's interpretive presentations include graphic displays, photographs, text, multimedia information kiosks, audio presentations and historical artifacts exhibited within thematically designed gallery spaces. The Yuma Proving Ground Heritage Center also preserves the institutional history of Yuma Proving Ground and promotes esprit de corps for current and future generations of Soldiers.	The center is located in a 14,540 sq ft wood frame, single story building (Building S-2) which served as the Post Headquarters from 1949 until the late 1980s. The facility converted many rooms for use as administrative areas, conservation and artifact storage areas, an exhibit fabrication and support area, a research and reference center, as well as dedicated exhibit galleries. There are currently ten exhibit galleries with another eight galleries planned. The museum learning environment is enhanced by two class rooms and a small theater that is used for public presentations, meetings and educational work space. The film and tape archives are stored in a separate environmentally controlled area within another building (Building 105) across from the center. There is an outdoor interpretive area for the exhibition of macro objects. Within the Range Operations Center (Building 2105) there is approximately 2,640 sq ft of newly created remote exhibits and displays.

Navy

U.S. Navy Seabee Museum			1	32,658	No	No
Naval Base Ventura County, Port Hueneme						
The U.S. Navy Seabee Museum collects, preserves and displays material representing the history and heritage of the Naval Construction Force, better known as the Seabees, and the U.S. Navy Civil Engineer Corps.	The U.S. Navy Seabee Museum serves as the principal repository of artifacts and archival relating to the history of the Civil Engineer Corps and U.S. Navy Seabees. The museum ensures proper documentation, care, and preservation of this essential information about the history of the naval shore establishment and the operations of the Naval Construction Force and provides accessibility to the collection to the Navy, veterans, and the public.	The museum is located in World War II-era Quonset huts with two additions added in 1968 and the mid-1980s. In 2009, the CEC/Seabee Historical Foundation gifted \$10 million for a new facility which is anticipated to open in 2011. Additional gift proffers of up to \$8 million are anticipated in upcoming years to fund the fabrication and installation of new permanent exhibits.				
U.S. Naval Museum of Armament & Technology			1	17,040	No	No
Naval Air Weapons Station, China Lake www.chinalakemuseum.org						
The Naval Museum of Armament & Technology documents, preserves, interprets and displays artifacts, records, and other historical material that depict the history of the Naval Air Weapons Station China Lake and the development of naval armament and technology from World War II to the present, including air-, sub- and surface-launched atomic weapons, rockets and missiles.	The Naval Ordnance Test Facility was established in 1943 as a unique experiment blending military and civilian professionals. Since then, the organization has grown from a handful of military pilots and California Institute of Technology professors testing bombs and rockets to over 5,000 personnel. During the Cold War and continuing today, a majority of the free world's weapons have had their origins at China Lake and its history serves to inspire and educate current and future U.S. Navy leaders, scientists, engineers and the American public.	The museum occupies a former Officers Club converted to a public exhibition space to interpret and display a selection of the NAVAIR-owned and managed artifact collection from Naval Air Weapons Station China Lake. The museum includes an outdoor air park containing an exceptional collection of aircraft and large weapons.

Marine Corps

Camp Pendleton Command Museums

Marine Corps Base, Camp Pendleton	www.cpp.usmc.mil/cpao/pages/about/history/museums.htm		12	74,423	Yes	Yes
Camp Pendleton Command Museum collects, records, preserves, and illuminates for present and future generations the historical legacy of Marine Corps Base Camp Pendleton and its personnel.	The museum preserves and provides essential U.S. Marine Corps, regional, and base history source materials; historical facilities; and programs that support Command staff and military, general audience, and student education.	Camp Pendleton Command Museum includes: 1. Marine Corps Mechanized Command Museum (Building 2612, a World War II-era wooden building); houses vehicles from the Vietnam to Desert Storm periods (Buildings 2631, 26031, 26042, 2616 used for restoration of vintage vehicles and armament) 2. Ranch House (NHS and State Historic Landmark; Building 24154; adobe structure); former home of CGs for 60 years 3. Bunk House (Building 24152; associated with 24154); historic adobe 4. Chapel (NHS; Building 24150; associated with 24154); historic adobe 5. History and Museum Offices and Base Archives (Building 1160) 6. Storage spaces (Buildings 2613, 2285)				

Flying Leatherneck Aviation Museum

MCAS Miramar, San Diego	www.flyingleathernecks.org		2	32,000	No	No
The Flying Leatherneck Aviation Museum memorializes, dedicates, and honors U.S. Marine Corps aviation achievements, sacrifices, and duty to the nation by providing static displays and galleries to educate members of the military and the general public as to the role of the U.S. Marine Corps in national defense.	The museum provides a significant ingredient to staff planning and command decisions; provides an essential element of professional military education; provides source material for the study and development of military history, art, and science; and gives substance to tradition and enhances esprit de corps.	The museum consists of a trailer complex and a warehouse which provide administrative, storage, restoration, archive/library and exhibit space.

Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
Marine Corps Recruit Depot Command Museum MCRD San Diego www.mcrdsdhistory.com/comm_museum.htm			1	22,233	Yes	Yes
The Recruit Depot Museum trains recruits in the legacy of the U.S. Marine Corps, contributes to the continuing education of Marines, and serves as a supporting arm to the recruiting effort and a bridge to the civilian community.	The museum supports recruiting and recruit training by presenting U.S. Marine Corps history and traditions to potential recruits and recruits in training. The museum displays pertinent artifacts, art, and other artifacts that dramatize the past, present, and future roles of the Marine Corps; portrays local military history and the history of Southern California, including the development of the Depot and units assigned.	The museum consists of one two-story former barracks building, which includes the museum store and visitor center.				
Marine Corps Total			15	128,656	2	2
Air Force						
Air Force Flight Test Center Museum Edwards Air Force Base www.edwards.af.mil/museum			4	44,960	No	No
Edwards Air Force Base collects, preserves, interprets and displays objects pertaining to the history of Edwards Air Force Base, its antecedents and our Nation's flight test heritage.	The overwhelming popularity and recognition accorded test pilots and the experimental aircraft and spacecraft they fly makes the Air Force Flight Test Center Museum as natural as it is necessary in the greater Southern California region. To preserve the material history of Edwards AFB and our Nation's flight test heritage, the museum received SAF approval in 1990. The museum's proximity to related aerospace activity conducted by NASA and industry makes this U.S. Air Force historical facility a vital component in telling the comprehensive and exciting story of test flight.	The museum includes four buildings totaling 44,960 sq ft: 12,000 sq ft containing offices, library, collection management, gift shop and theater (Building 5295); Warehouse: 8,000 sq ft for shop area and storage of supplies and materials (Building 4915); World War II-era Hangar: 21,000 sq ft storage and maintenance and 3,000 sq ft shop and office space (Building 4305); Blackbird Airpark Visitor Center at U.S. Air Force Plant 42: three acre outdoor display and 960 sq ft visitor center.

Fort Carson Collection/Activity

Fort Carson

The Historical Programs Office is the directorate that will manage both the 4th Infantry Division Museum, when it finally arrives at Fort Carson, and the Mountain Post Historical Center, a new museum projected to open at Fort Carson in 2009. It was originally intended to also house the Installation Historian function, but there is currently no historian. To provide educational services to include programs, classes, exhibits, audiovisuals and publications for use by the Army at Fort Carson, public schools, and the civilian and military communities.

The Fort Carson Museum Activity is the responsible steward of the Army's heritage assets specific to Fort Carson that includes accountability, preservation, and security of historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The Fort Carson Museum Activity also preserves the institutional history of Fort Carson and promotes esprit de corps for current and future generations of Soldiers.

The museum is not yet operational and consists of more than 1,800 artifacts that will eventually form the core of the public museum. The collection is stored in approximately 325 sq ft of the five rooms allocated to the Historical Programs Office in a large motor pool building of cement block construction. The museum office functions are conducted in the shared facilities. There are no galleries and artifact storage is allocated out of the approximately 2,635 sq ft.

Air Force

Edward J. Peterson Air and Space Museum Peterson Air Force Base www.petemuseum.org			4	25,300	Yes	No
Edward J. Peterson Air and Space Museum provides educational outreach programs to local community schools, civic organizations, and professional military education entities. Three regional U.S. Air Force communities utilize the museum for individual and group ceremonies, such as changes of command, promotions, retirements, and DV receptions. The museum provides safe, professional archival storage and exhibition of rare military cultural artifacts. The museum's Spanish House is used by the Air Force for distinguished visitor quarters.	The museum provides a means to tie Colorado Springs aviation history, the Air Force's role in space and the defense of North America to our civilian and military community. Since 11 September 2001, Edward J. Peterson Air and Space Museum provides one of the only publicly accessible venues available to showcase current and past military missions.	The museum occupies 8.6 acres with four buildings, eleven static display aircraft, and four missile systems. The four buildings comprise the Colorado Springs Municipal Historic District (on the National Register). The City Terminal (3,550 sq ft), served as the first passenger terminal for the Colorado Springs Municipal Airport. It currently houses admin offices, a gift shop, visitor orientation, and exhibits. The City Hangar (9,500 sq ft) currently houses air defense, missile warning, and space operations exhibits. The operations building (2,250 sq ft) houses admin offices, exhibit construction workshops, and storage. The Broadmoor Hangar (10,000 sq ft) has served as administrative offices and curatorial storage since July 2007. Until January 2010 it shared office space with another agency, but with that agencies' departure, will begin conversion of the Broadmoor Hangar for expanded exhibit and functional space.

Navy

U.S. Navy Submarine Force Museum and Historic Ship NAUTILUS

Submarine Base New London, Groton www.ussnautilus.org

The U.S. Navy Submarine Force Museum collects, preserves, and educates naval personnel and the general public in the history, heritage and achievements of the Submarine Force.

The Submarine Force Museum, along with USS NAUTILUS, the world's first nuclear powered submarine, trace the development of the "silent service" from the Revolutionary War to the modern submarines used by the Navy today. The museum is the Navy's official submarine museum and the primary repository for the artifacts and documents relating to the history and development of the U.S. Submarine Force. These collections are used to educate the public and the Navy on the heritage and operation of American submarines.

The museum complex encompasses approximately four acres in landscaped, park-like setting with independent parking and access that hosts outdoor exhibits of large-scale submarine artifacts and midget submarines. The museum itself is a professionally designed stand alone structure with pier facilities supporting USS NAUTILUS (SSN 571). A separate warehouse on board Sub Base New London is used to process and store artifacts in the museum's collection.

Air Force						
Air Mobility Command Museum						
Dover Air Force Base http://amcmuseum.org/			3	60,000	Yes	No
The primary mission of the Air Mobility Command Museum is to present the history and development of military airlift and tanker operations. The second closely aligned mission is to portray the rich history of Dover Air Force Base and its predecessor Dover Army Airfield. This is accomplished through the use of educational exhibits, representative vintage aircraft, and multimedia presentations. The museum covers U.S. Army Air Corps, U.S. Army Air Force, and U.S. Air Force accomplishments. It also recognizes personnel who served as enlisted, officer, or civilian members of these organizations, as well as the contributions of spouses and the community to the airlift/tanker mission.	The AMC Museum is the only museum in the U.S. dedicated to airlift and air refueling aircraft. There are a number of rare aircraft preserved here that are either the first, last or only remaining aircraft of their type. Military airlift and air refueling aircraft are the most under-represented aircraft in both civilian and military museum collections around the country, and in today's world they are the image of American Airpower seen most often by the world.	The museum is located at the south end of Dover Air Force Base in a renovated hangar that is listed on the National Historic Register. During World War II it was the site of the Army Air Force rocket test facility. The main museum compound encompasses approximately 25 acres. It is directly accessible to the general public and is physically separated from the main base by a perimeter grade chain link fence topped with a double row of barbed wire. The main hangar structure resembles a large Quonset hut. It measures 120' x 160' inside, with full width opening doors on both ends. This provides 20,640 sq ft of clear area for inside aircraft display. A seven acre airpark constructed of stressed concrete and asphalt abuts the west hangar doors of the museum. The museum has use of 2/3rds of a maintenance hangar on the main base used for aircraft restoration. It also uses one bay of a large hangar for storage.

National Museum of the United States Navy

Washington Navy Yard, DC www.history.navy.mil/branches/nhcorg8.htm

The National Museum of the United States Navy preserves and interprets the overall history of the U.S. Navy and the impact of American sea power, from the Revolutionary War to the present, in order to educate naval personnel and the public in the heritage and traditions of the Navy.	Located on board the Washington Navy Yard, the National Museum serves as the Service's Flagship institution within the National Capital Region. It displays naval artifacts, models, documents, and fine art that chronicle the history of the U.S. Navy from the American Revolution to present day conflicts. The museum is accredited by the American Association of Museums.	The museum is physically co-located with the headquarters and main components of the Navy History and Heritage Command. Its facilities comprise two public exhibition buildings, which also include artifact storage, exhibit workshops, office spaces and educational spaces.	2	98,582	No	Yes

National Museum of Health and Medicine, Armed Forces Institute of Pathology						
Walter Reed Army Medical Center	http://nmhm.washingtondc.museum/		2	65,000	No	Yes
DoDD 5154.24, 5.1.10: [AFIP shall] Maintain, facilitate, expand, and improve the advancement of the activities of the National Museum of Health and Medicine pertinent to collecting, preserving, interpreting, and financial reporting on the national collection of medical artifacts, pathological and skeletal specimens, research collections and archival resources, and applicable materials from other Federal medical sources; and developing, presenting, and promoting public programs and exhibitions and participating in informational activities that improve the understanding and promote awareness of military medical history, medical science, disease prevention, and health education. The museum is a tri-service component of the Armed Forces Institute of Pathology, a tri-service entity in its missions, collections, and activities and is not aligned with any one specific service. It reports to the Department of Defense through the Armed Forces Institute of Pathology's Board of Governors (consisting of the Surgeons General of the Army, Navy, Air Force, and Public Health Service, the medical director of the VA, and a former director of the Institute) which is chaired by the Assistant Secretary of Defense for Health Affairs.	DoDI 5154.30; DoDD 5154.24; 10 U.S.C. 176. The museum serves as public face of tri-service military medicine in the national capital area and beyond. It preserves and interprets past, current, and contemporary military medicine and American medicine for the DoD community and all citizens, and makes available its collections for qualified scholars and public exhibitions and programs. Staff support is provided to all services in areas of historical and contemporary biomedicine as needed.	Approximately 40,000 sq ft in Building 54, AFIP, on main campus of Walter Reed Army Medical Center; includes public exhibition space, lobby, restrooms, auditorium, collections management spaces, laboratory space, exhibition development space, and offices. Approximately 25,000 sq ft in Gaithersburg, MD secure object management facility on long-term lease provided through GSA. High volume collections management and storage and office space.

National Naval Aviation Museum						
Naval Air Station, Pensacola http://naval.aviation.museum/intro.html			5	381,461	No	No
The National Naval Aviation Museum collects, preserves and displays material representing the history and heritage of naval aviation.	The National Naval Aviation Museum is devoted exclusively to Navy, Marine Corps, and Coast Guard aviation history. As one of America's premier aviation museums, it displays and interprets more than 150 aircraft spanning the history of naval aviation from 1911 to the present day. In addition, the museum manages nearly 800 aircraft on outgoing loan to other museums and historical sites as well as municipalities and military bases. In addition to the aircraft, holdings include a small artifact collection of over 30,000 items and an extensive archives. The museum is accredited by the American Association of Museums.	The museum comprises exhibit, storage, and maintenance/restoration facilities along with outdoor space for additional storage and display of large artifacts. The 273,000 sq ft main facility houses over 100 full-size aircraft as well as numerous exhibits, administrative offices, a 525-seat theater, a 110-seat café, an 8,000 sq ft museum store, a reference library/research facility, and other conference and education facilities in support of U.S. Navy customers and general visitors. Other facilities include a hangar facility for aircraft storage/rework, an exhibit fabrication building, and structures devoted to collections storage and processing.

Air Force

Air Force Armament Museum			2	34,000	No	No
Eglin Air Force Base www.afarmamentmuseum.com/						
The primary mission of the Air Force Armament Museum is to preserve the history of Eglin's Air Force Armament, including the delivery platforms and weapons test/development through the collection, restoration, conservation/display and storage of related historical property. The museum provides educational opportunities and accurate information to both the military and civilian communities through interpretive exhibits of graphics/artifacts both past and present.	The Armament Museum provides an invaluable service to Eglin Air Force Base, local community, and visiting patrons from the continental U.S. and overseas through education, U.S. Air Force recruiting, and special events. The museum offers visitors the opportunity to learn and experience these great aircraft and armament objects of our cultural heritage. In addition to the educational opportunities, the museum also sponsors over 250 community special events each year. Some of these events include: military and civilian retirement/promotion ceremonies, various graduation ceremonies, U.S. Air Force Armament Symposium, U.S. Air Force Association banquet, Boy Scouts Eagle ceremonies, and many educational partnerships with local schools for scheduled tours, including both high school and college ROTC programs.	The Air Force Armament Museum is a 24 year old facility located outside the base property on 17 acres, which includes two buildings. The main museum (Building 2807) is a two level, HVAC, metal structured building with 28,000 sq ft. The restoration facility (Building 2803) is a metal storage and wood shop structured facility with approximately 6,000 sq ft.				
Air Force Space & Missile Museum			13	37,838	Yes	Yes
Cape Canaveral Air Force Station www.patrick.af.mil/library/factsheets/factsheet.asp?id=4496						
The mission of the Air Force Space & Missile Museum is to collect, preserve, restore, and exhibit items of historical significance which directly relate to the development, heritage, missions, and units associated with U.S. Air Force space launch activities, missile airframes, payloads, related systems development and Cape Canaveral history.	Launch Complex 26 was the launch site of the first U.S. satellite and also the launch site of three primates in support of the early U.S. manned space flight program. The museum was established shortly after the Launch Complex was deactivated (1963) to educate the general public on the important role of the U.S. Air Force in spacecraft and missile systems development.	The Air Force Space & Missile Museum is located at deactivated Launch Complex 26, which includes five associated buildings: Blockhouse, Ready Building, Exhibit Hall, and two launch pad generator buildings. A deactivated spin test complex is also part of the museum and includes four associated buildings: High-Bay, Mid-Bay, Cold Soak Facility, and Quonset Hut. A deactivated Bomarc Launch Facility is used for off-site storage of large artifacts. Three rooms in Hangar H house the Museum's Reference Library and Archives. Hangar R houses 13 restored rockets and missiles. A newly renovated 3,242 sq ft building will be open in the Spring of 2010 which is located at the South Gate entrance to Cape Canaveral Air Force Station and will be accessible to the

National Infantry Museum						
Fort Benning www.army.mil/CMH/Museums/links.htm			14	109,750	Yes	No
The mission of the National Infantry Museum is to collect, preserve and interpret artifacts, and provide education to the Soldier that relates to the Infantry's heritage. The museum promotes public awareness of the Infantry's contribution to National defense. The museum is the main repository for over 200 years of history about the American infantryman and the heritage of the U.S. Infantry, the "Queen of Battle". The collection contains original firearms, edged weapons, uniforms, and accouterments that were used by American infantrymen and by some of the great generals of this century: John J. Pershing, Dwight D. Eisenhower, Omar N. Bradley, and George S. Patton, Jr.	The National Infantry Museum is the responsible steward of the Army's heritage assets specific to Fort Benning that includes accountability, preservation, and security of 26,538 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Fort Benning and promotes esprit de corps for current and future generations of Soldiers.	The National Infantry Museum opened in June 2009 in a new 85,000 sq ft facility provided by the National Infantry Museum Foundation.				

National Museum of the Army Reserve

U.S. Army Signal Corps Museum Fort Gordon www.army.mil/CMH/Museums/links.htm			3	18,904	No	No
The U.S. Army Signal Corps Museum was established in 1965, and it holds the largest collection of communications equipment in the Army Museum System. Because it has representative samples from both the U.S. Army and other foreign military forces, the museum is able to address the complete story of modern military communications. Beginning with the Civil War and continuing into the space age, the museum visitors have an opportunity to view a wide variety of artifacts that include signal flags, radios, photography equipment, and telephones. Exhibits in the facility are tailored to accommodate both the casual visitor and the technological expert. The museum features a reference library, traveling exhibits, gift shop, guided tours, educational programs for military personnel and school children, lectures, daily films, research services, special exhibits, and gallery talks.	The U.S. Army Signal Corps Museum is the responsible steward of the Army's heritage assets specific to Signal Corps that includes accountability, preservation, and security of 4,000 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Signal Corps and promotes esprit de corps for current and future generations of Soldiers.	The U.S. Army Signal Corps Museum consists of three buildings. The offices, exhibit galleries, and main collections areas are located in Building 29807, Conrad Hall. The museum also occupies Buildings 39127 and 40115 in Brems Barracks, which are used for collections and workshops. Total square footage is approximately 18,904.

Navy

U.S. Navy Supply Corps Museum Naval Supply Corps School Athens			1	7,211	Yes	No
The U.S. Navy Supply Corps Museum collects, preserves, displays, and interprets artifacts and archival materials pertaining to the history of naval supply and logistics, including the organization and officers of the U.S. Navy Supply Corps, Navy Supply Corps School (NSCS), and Sailors serving in supply rates.	The museum and its collections constitute the institutional memory of the Supply Corps. It offers visitors an appreciation of the Supply Corps' heritage, and provides the general public with an understanding of the importance of the Supply Corps mission and the role of the NSCS. Co-located with NSCS, the museum maintains displays in academic buildings in support of the curricula and classroom instruction, while its collections, records and reference material support individual student research.	The museum, a former Carnegie Library, includes exhibit space, storage, a reference/reading area and office spaces. The base at Athens will be closed under BRAC by 2011 with the Supply Corps Museum disestablished at its current location then reestablished, along with NSCS, in Newport, RI. The museum is currently in a caretaker status, and is open to the public by appointment only as its collections are inventoried and prepared for relocation incidental to BRAC.

Air Force

Museum of Aviation Flight and Technology Center Robins Air Force Base			8	271,306	No	No
The mission of the Museum of Aviation is to portray the history of Robins Air Force Base as part of the heritage of the United States Air Force, educate and inspire visitors, and recruit the future work force. As one of only seven aviation museums in the United States, accredited by the American Association of Museums, the museum collects, preserves, and interprets over 5,400 historically and culturally significant artifacts through dynamic, award winning exhibits. The museum's vision is to become an internationally recognized destination that inspires our visitors with the stories of the brave men and women who have protected our freedoms, while serving in the United States Air Force. Nationally recognized hands-on educational programs are used to encourage enthusiasm about learning, inspiring young people to develop an interest in science, aviation and the U. S. Air Force. The museum features venues for military and civilian training, world wide conferences, lectures, reference library, gift shop, guided tours, and research services.	With over 655,000 visitors in FY2009, the museum has garnered the public's understanding and support for the roles and missions of the U.S. Air Force and an appreciation of our heritage. Our visitors are inspired as the heroic deeds of our Airmen are portrayed through the use of realistic exhibit dioramas. As a venue for over 662 special events in FY2009, the museum allows visitors to gain an important understanding of the traditions, heritage, and role of the military in today's world. Visitors have unique opportunities to experience military retirements, changes of command and reunions with our veterans. The museum's award winning education programs serviced over 48,000 students from all over the Southeast, providing teachers unique opportunities in meeting national education standards and requirements. In coordination with local colleges and universities, the museum provided "hands-on" training opportunities for future employees of Robins AFB and the aviation industry. The museum is consistently used as a successful tool by U.S. Air Force recruiters.	The Museum consists of 174,473 sq ft devoted to exhibit galleries and 96,833 sq ft for support functions (collections, storage, research, exhibit, fabrication and aircraft restoration). These facilities are part of an eight building complex located on a 51 acre campus, featuring a 500 seat outdoor amphitheatre and a two acre park with five large covered pavilions and restroom facilities. The museum's aircraft collection consists of over 90 static display aircraft and over 5,400 historical artifacts that are a part of the National Collection of the U.S. Air Force.

Rock Island Arsenal Museum						
Rock Island Arsenal www.army.mil/CMH/Museums/links.htm			1	33,284	Yes	Yes
The mission of the Rock Island Arsenal Museum is to collect, preserve, and interpret the history of Rock Island Arsenal and Arsenal Island from 1816 to present. As an educational institution, the museum supports research activities within the arsenal and provides appropriate training and education for its military personnel and the surrounding community. The Rock Island Arsenal Museum is the second oldest U.S. Army museum. It opened to the public as the Ordnance Museum on 4 July 1905. Much of the collection was obtained from the War Department display at the Louisiana Purchase Exposition (1904 St. Louis World's Fair). The museum also houses a large weapons collection obtained from items warehoused at the arsenal.	The Rock Island Arsenal Museum is the responsible steward of the Army's heritage assets specific to Rock Island Arsenal that includes accountability, preservation, and security of over 11,393 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Rock Island Arsenal and promotes esprit de corps for current and future generations of Soldiers.	The Rock Island Arsenal Museum is housed in one floor of the east wing of a post-Civil War limestone building. The exhibit hall, primary artifact storage, and theater occupy approximately 10,000 sq ft. The Museum Resource Center, with office space and consolidated storage area for research materials, was added in the basement in FY2006. Additional artifact storage, research collections, and exhibit workshop are located in other areas of the building complex.

Great Lakes Naval Museum						
U.S. Naval Station, Great Lakes www.nsgreatlakes.navy.mil/museum			1	22,378	No	No
The mission of the Great Lakes Naval Museum is to tell the story of the U.S. Navy Enlisted Sailors. The museum is a source of heritage training for new recruits, Fleet Sailors, and civilian visitors from across the country; emphasizing the story of turning civilians into Sailors at boot camps here and elsewhere, and of those Sailors' contributions to the protection of the Nation. The museum serves as a visible reminder of the Navy's strong roots in the Midwest and the Station's hundred-year history as a center of recruiting, training, and pride.	The story of enlisted men and women is not specifically told in any other U.S. Navy museum. All of the Navy's new recruits, about 40,000 per year, are trained at Recruit Training Command. The museum supplements the training for these recruits and staff and students assigned to Training Support Command. It also encourages young people to consider the Navy. The Navy's diversity is honored in exhibits highlighting contributions by women and minorities.	During FY2008 the museum remained in Building 158 of the Camp Barry section of Naval Station Great Lakes, however in early FY2009 the museum relocated to Building 42, immediately adjacent to the main gate and visitors center for improved public visibility and access. Building 42 is a historic and architecturally significant building and its adaptive reuse as a museum facility simultaneously meets the museum's needs, supports the Naval Station's strategic facilities/footprint reduction plan, and conforms with the interests of local preservation groups that the building be preserved. SECNAV has authorized approval of a donation of \$320,000 for initial building rehab work and approximately \$200,000 of that work has been completed as of 31 December 2009. Official presentation of this project

Army

1st Infantry Division Museum Fort Riley www.army.mil/CMH/Museums/links.htm			1	2,500	No	No
The "Big Red One," the nickname of the 1st Infantry Division, is the oldest division in the Army and addresses the division's history from its activation in 1917 to the present. Housed in a renovated historic building at Fort Riley it has many historical and educational displays, as well as a gift shop. Exhibits in the museum trace the history of the Big Red One through its training and campaigns in World War I, its peacetime role during the interwar years, and its extensive service in North Africa and Europe in World War II.	The First Infantry Division Museum is the responsible steward of the Army's heritage assets specific to 1st Infantry Division that includes accountability, preservation, and security of historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Fort Riley and promotes esprit de corps for current and future generations of Soldiers.	The 1st Infantry Division Museum is a three story, limestone structure, originally constructed c. 1906. It was originally built as a barracks; later converted to office use and became a museum in 1992.				

Frontier Army Museum Fort Leavenworth www.army.mil/CMH/Museums/links.htm			1	28,000	Yes	Yes
The mission of the Frontier Army Museum is to collect, preserve, manage, research, and utilize for educational purposes, historically significant property pertaining to the history of the Frontier Army (1817-1917) and Fort Leavenworth (1827-Present). In fulfilling this mission, the Frontier Army Museum maintains a collection of military material (both original and replicas) to support various educational programs for the Fort Leavenworth community. Established in 1827 as a major frontier outpost, it later became a military education center for U.S. Army officers, which was a precursor to the U.S. Army Command and General Staff College.	The Frontier Army Museum is the responsible steward of the Army's heritage assets specific to Frontier Army and Fort Leavenworth that includes accountability, preservation, and security of more than 5,360 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Frontier Army and Fort Leavenworth and promotes esprit de corps for current and future generations of Soldiers.	The Frontier Army Museum is located in Building 801. This is a wood frame temporary structure built in 1941 and was originally one of the class halls used by the Command and General Staff College. The museum moved in the facility in 1959. The structure has had upgrades to include a new HVAC system a self contained collection storage area, fire suppression, and humidity control.				

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
U.S. Cavalry Museum Fort Riley www.army.mil/CMH/Museums/links.htm			1	10,000	Yes	No
The mission of the U.S. Cavalry Museum is to collect, preserve, exhibit, and interpret those materials that are integral parts of the history and traditions of the U.S. Cavalry from 1775 to 1950. In addition, the museum is responsible for exhibiting and interpreting the history of Fort Riley from its conception to the present, to include its various schools, major commands, and community life. To support post education, training, research and historical programs, the museum provides educational programs and services.	The U.S. Cavalry Museum is the responsible steward of the Army's heritage assets specific to U.S. Cavalry that includes accountability, preservation, and security of more than 9,500 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of U.S. Cavalry and promotes esprit de corps for current and future generations of Soldiers.	This facility originally was established as the Fort Riley Historical Museum in 1957; five years later, it was redesignated as the U.S. Cavalry Museum. It is housed in a stone building that was constructed in 1853-the same year that the installation was named Fort Riley in honor of Major General Bennet Riley, a veteran of the War of 1812, the Indian wars, and the Mexican War.

Don F. Pratt Memorial Museum						
Fort Campbell	www.army.mil/CMH/Museums/links.htm		2	14,000	No	No
<p>The museum was established on Fort Campbell, in May of 1956, as a Division Museum for the 101st Airborne Division. The museum was memorialized in honor of the first Assistant Division Commander of the 101st Airborne Division, B.G. Don F. Pratt. Today, many units are honored within the museum, units such as the 12th, 14th, and 20th Armored Divisions, the 11th and 101st Airborne Divisions, the 173rd Airborne Brigade (Separate), the 160th Special Operations Aviation Regiment, the 5th Special Forces Group (Airborne) and many more. Emphasis is placed on the 101st Airborne Division and its units covering the many aspects of its proud history. Reference library and archives, research services, guided tours, historical films, gift shop, gallery talks, lectures, and educational programs.</p>		<p>The Don F. Pratt Memorial Museum is the responsible steward of the Army's heritage assets specific to 101st Airborne Division that includes accountability, preservation, and security of 10,264 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of 101st Airborne Division and promotes esprit de corps for current and future generations of Soldiers.</p>	<p>The museum is now housed in Wickam Hall, a large brown metal building, which was built in the 1960s as a movie theater, classroom and auditorium used for basic training during the Vietnam War.</p>

Patton Museum of Cavalry and Armor						
Fort Knox	www.army.mil/CMH/Museums/links.htm		11	96,000	Yes	No
The Patton Museum of Cavalry and Armor emerged from a collection of enemy equipment that was captured during World War II and sent to armor school at Fort Knox for study. Because many of the vehicles came from the 3rd U.S. Army, the entire collection became identified with that the Army's famous commander, General George S. Patton, Jr. The museum's mission is to ensure the perpetual care and preservation of its 250+ macro artifacts (tanks, APCs, anti-tank guns, etc.) and over 9,500 micro artifacts related to mechanized warfare so they may be used to train/educate and inspire military and civilian visitors on the history and traditions of the Armored Force from 1918 to the present day. The museum actively pursues artifacts for its collection that enhance its ability to execute this mission. The museum conducts and facilitates scholarly and technical research into mechanized warfare subject areas and maintains a library archive relating to the collection. Many of the historic armored vehicles in the collections are maintained in operational condition to enhance their educational value.	The Patton Museum of Cavalry & Armor is the responsible steward of the Army's heritage assets specific to the militarized force of George S. Patton, Jr., 3rd U.S. Army that includes accountability, preservation, and security of more than 9,171 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The Patton Museum of Cavalry & Armor also preserves the institutional history of Armor Branch and promotes esprit de corps for current and future generations of Soldiers.	The main museum was constructed with private funds donated by the Patton Museum Foundation.

Navy

Patuxent River Naval Air Museum			2	11,604	No	No
Naval Air Station Patuxent River www.paxmuseum.com						
The Patuxent River Naval Air Museum preserves the heritage and tells the continuing story of naval aviation research, development, testing, and evaluation (RDT&E).	The museum is dedicated to telling the extraordinary story of naval aviation research, development, testing and evaluation since 1911, particularly the last fifty years. The museum's collection and exhibits focus on aeronautical science and technology of the past and present in order to challenge the visitor's imagination regarding what might be in store for the future. The museum serves active duty and civilian U.S. Navy personnel in the broad RDT&E community represented by the Naval Air Systems Command, Naval Test Pilot School, and other activities on board NAS Pax River, their families, and the local community in St. Mary's County.	The museum comprises two warehouse buildings owned by St. Mary's County on land immediately adjacent to the main gate at NAS Pax River. The county buildings and land, which includes a parking lot, plus an outdoor airpark which is located on contiguous U.S. Navy-owned land, totals 1.67 acres. A double fence line surrounding the airpark provides security for, and supports continuous public access to, the aircraft on display, while also preserving the base's security perimeter.				

U.S. Naval Academy Museum			2	27,000	Yes	Yes
U.S. Naval Academy, Annapolis www.usna.edu/Museum						
The mission of the U.S. Naval Academy Museum is to maintain and preserve the physical reminders of the heritage and history of the Naval Academy and its graduates in order to develop midshipmen as naval officers, to educate visitors on the contributions of the U.S. Naval Academy and its graduates to the Nation in war and in peace, and to inspire young people to seek a career of service to the Nation.	The primary mission of the museum is to help teach midshipmen and contribute to their intellectual and moral development as naval leaders. The museum provides programs and services to the midshipmen and faculty, not for the History Department alone, but for many academic disciplines including the Departments of Leadership, Weapons and Systems Engineering, Oceanography, and English, among others. The new classroom built into the Museum's second deck is currently being used about three-fourths of the time for academic classes.	The Naval Academy Museum closed to the public in December 2008 as the Preble Hall facility underwent the first significant rehabilitation in over 45 years. The Museum staff reoccupied Preble Hall in March 2009. The gallery "Ship Models from the Great Age of Sail" opened on the second deck of the Museum in May 2009, in time for Commissioning Week activities at the Naval Academy. The main floor galleries reopened in August 2009. The museum now has a museum store and has been able to consolidate their collection storage into one building outside of Preble Hall.

Other Defense Agencies						
National Cryptologic Museum, National Security Agency						
Fort Meade www.nsa.gov/museum/index.cfm			1	18,850	No	No
The National Cryptologic Museum is the National Security Agency's principal gateway to the public. It shares the Nation's, as well as NSA's, cryptologic legacy and place in world history. Located adjacent to NSA Headquarters, Ft. George G. Meade, Maryland, the Museum houses a collection of thousands of artifacts that collectively serve to sustain the history of the cryptologic profession.	Since antiquity, the art and science of cryptology has played an indispensable role in preserving freedom and liberty. In addition the making and breaking of codes has always been a critical part of the America's efforts to preserve its national security, both in peacetime, but particularly in time of war. Through the telling of the many interesting cryptologic success stories on exhibit the National Cryptologic Museum allows visitors to understand the vital role the discipline has played not only in the past but more importantly in meeting the national security challenges of this day and time.	In the early 1990's NSA acquired a large tract of land adjacent to the NSA campus. This area was the location of the former Colony 7 Motor Hotel. The National Cryptologic Museum is located in the lone remaining structure of that complex. The facility, including the parking lot is on a three acre parcel that lies within the shadow of the main NSA buildings. Despite its proximity to the operational areas, the museum is a open to the public.

U.S. Army Communication-Electronics Historical Holding						
Fort Monmouth www.monmouth.army.mil/museum/index4.shtml			2	10,000	No	No
The U.S. Army Communications-Electronics Historical Holding collects, preserves, exhibits, and interprets the history of electronic-communications technology. Since 1917 the U.S. Army has been pioneering electronic-communications technology, bringing about significant technological and scientific breakthroughs. Fort Monmouth was instrumental in developing the first radio-equipped meteorological balloon in 1928 and aircraft detection radar in 1938. In 1946, the feasibility of space communication was demonstrated here. A variety of exhibits feature photographs and artifacts that tell the story of these developments. Radar, transistors, night vision devices, communication and weather satellites, mass production of printed circuits, solar batteries, and other items owe a debt to the innovation of Fort Monmouth's technical teams.	The U.S. Army Communications-Electronics Historical Holding is the responsible steward of the Army's heritage assets specific to Army communications and electronics that includes accountability, preservation, and security of more than 15,000 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The holding also preserves the institutional history of Army communications and electronics and promotes esprit de corps for current and future generations of Soldiers.	The museum is housed in a standard built structure on Fort Monmouth.

Fort Drum Historical Holding						
Fort Drum			3	5,965	No	No
The mission of the Fort Drum Historical Holding is to collect, preserve, exhibit, and interpret the history of Fort Drum and 10th Mountain Division. The indoor collection consists of an approximate 1,700 sq ft exhibit area, with displays of uniforms, weapons, documents, photographs and equipment illustrating the history of Fort Drum as a military installation. A 300 sq ft conference room has a small collection of military history reference books available and two television monitors for viewing historical videos from the collection.	The Fort Drum Historical Holding is the responsible steward of the Army's heritage assets specific to Fort Drum that includes accountability, preservation, and security of more than 3,500 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The Fort Drum Historical Holding also preserves the institutional history of Fort Drum and promotes esprit de corps for current and future generations of Soldiers.	The Ft. Drum Museum is located at the post Heritage Center and contains 1,600 sq ft of exhibits focused on the history of the area and the 10th Mountain Division.				

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
Harbor Defense Museum of New York City Fort Hamilton, Brooklyn www.army.mil/CMH/Museums/links.htm			3	5,000	Yes	No
The museum is dedicated to the history and evolution of New York City's harbor defenses, beginning with the construction of the earliest earthen forts and concluding with the Nike missile era. Artifacts, models, images and dioramas detailing New York's harbor defenses are located throughout the museum. Temporary exhibits, periodic lectures and presentations, classroom facilities, reference library and archives are available to individuals, schools and groups.	The Harbor Defense Museum of New York City is the responsible steward of the Army's heritage assets specific to Fort Hamilton that includes accountability, preservation, and security of more than 2,100 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The Harbor Defense Museum of New York City also preserves the institutional history of Fort Hamilton and promotes esprit de corps for current and future generations of Soldiers.	The museum is located in the caponier of the old fort on the grounds of the U.S. Army Garrison at Fort Hamilton, Brooklyn, adjacent to the base of the Verrazano Bridge. Built between 1825-1831, the fort and the caponier have been added to the National Register of Historic Places. The fort underwent several structural modifications in the following century as advances in weaponry required the upgrading of its defenses and urban development crowded its position.				
Watervliet Arsenal Museum Watervliet Arsenal www.army.mil/CMH/Museums/links.htm			1	30,000	Yes	Yes
The Watervliet Arsenal Museum will collect, preserve, exhibit, and utilize for educational purposes, historically significant objects related to the history of Watervliet Arsenal from 1813 to the present. In fulfilling this mission, the museum addresses through its collections, exhibitions, and educational programs the impact of the installation on the surrounding community, products of the arsenal, a general history of the installation, technological innovations at the arsenal, and cannon design and development.	The Watervliet Arsenal Museum is the responsible steward of the Army's heritage assets specific to Watervliet Arsenal that includes accountability, preservation, and security of more than 1,485 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Watervliet Arsenal and promotes esprit de corps for current and future generations of Soldiers.	The museum is located in The Iron Building, perhaps the last free standing cast iron warehouse structure left in America. Cast in Brooklyn in 1859, it was shipped up the Hudson River on a barge and erected on the Watervliet Arsenal, the nation's oldest continuously active arsenal. In the early 1980s, a section of the building was converted for use as a museum. The museum, a free standing structure, is built inside the Iron Building for climate control purposes.

West Point Museum						
U.S. Military Academy	www.army.mil/CMH/Museums/links.htm		2	39,980	Yes	Yes
The mission of the West Point Museum is to serve as the custodian and repository for all awards, gifts and items of memorial or historic interest pertaining to the United States Military Academy. The West Point Museum is the oldest museum in the U.S. Army. The museum collection, which also is the largest in the Army Museum System, embraces a comprehensive variety of historically significant properties that are associated with our military heritage. Firearms and edged weapons from both this country and other nations date from the sixteenth century to the present. The collection also includes military flags and colors, along with examples of various types of body armor, uniforms, insignia, medals, and military ordnance. The museum features a reference library and archives, gift shop, educational programs, gallery talks, and lectures.	The West Point Museum is the responsible steward of the Army's heritage assets specific to United States Military Academy that includes accountability, preservation, and security of more than 21,525 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of United States Military Academy and promotes esprit de corps for current and future generations of Soldiers.	The West Point Museum opened in 1854. In 1989 the West Point Museum moved into Olmsted Hall at the Pershing Center, which shares building space with Soldier classroom training. In 2006, the museum opened the Andre Lucas Military Heritage Center providing an audio/visual training facility for soldiers, cadets and the public. The museum is accredited by the American Association of Museums.

Air Force

National Museum of the United States Air		Wright-Patterson Air Force Base www.nationalmuseum.af.mil		15	1,185,451	Yes	No
In accordance with Air Force Mission Directive 29 (AFMD 29), the National Museum of the U.S. Air Force (NMUSAF) portrays the history and traditions of the U.S. Air Force through specialized interpretive exhibits and displays of U.S. Air Force historical property, and by operating the U.S. Air Force's national museum. Founded in 1923, the NMUSAF is the world's oldest and largest aviation museum. The NMUSAF is national in both character and operation and has earned global respect and visibility. The NMUSAF holds in stewardship the world-class historical collection of the U.S. Air Force. The NMUSAF also provides professional oversight, guidance, and training for the U.S. Air Force Heritage Program, including field activities.	The museum fulfills the Secretary of the Air Force's direction to acquire, preserve, and use material heritage assets of the U.S. Air Force's historical property collection, which is an integral component of the national collection (AFMD29). The NMUSAF is executive agent on behalf of the Secretary for the management of 10 U.S.C. 2572 for the loan of Air Force Historical Property to authorized governmental and civilian activities. This represents the loan of approximately 2,449 aerospace vehicles and 39,262 artifacts to over 724 qualified organizations world-wide. Additionally, the NMUSAF provides needed historical services to the Air Force and other DoD activities as well as providing a vital cultural adjunct to civilian communities. The NMUSAF provides actions in the curation of the Air Force Historical Collection (92,000+ objects) and their interpretation to an international audience.	The NMUSAF currently occupies fifteen buildings with 790,512 sq ft devoted to exhibit galleries and 338,880 sq ft for museum support functions (e.g. collections, storage, research, exhibit, fabrication, and aircraft restoration). These facilities are located on a 450 acre campus, which also features a 7,250 ft runway for the recovery of aircraft being delivered to the national collection.

U.S. Army Field Artillery and Fort Sill Museum Fort Sill www.army.mil/CMH/Museums/links.htm			26	287,728	Yes	Yes
The primary mission of the U.S. Army Field Artillery and Fort Sill Museum is to function as a permanent historical and educational institution at Fort Sill, providing training and education for military and civilian personnel, and the general public on all aspects of the history of the Army's Field Artillery and Fort Sill. Approximately half of the museum's collection and exhibitions are devoted to the history of the installation and the surrounding area. Beginning from the 1830s and continuing to the present, visitors to the museum have an opportunity to see rare artifacts associated with the settlement of the area and the development of this frontier post.	The U.S. Army Field Artillery & Fort Sill Museum is the responsible steward of the Army's heritage assets specific to Fort Sill that includes accountability, preservation, and security of more than 36,000 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Fort Sill and promotes esprit de corps for current and future generations of Soldiers.	The museum at Fort Sill is the largest in the U.S. Army. Of the 46 historic buildings in the National Historic Landmark, the museum occupies 26 structures where its vast collections are both stored and exhibited. The Quartermaster Corral was formally dedicated as a museum building in 1958. By the 1970s the museum had grown to include several additional buildings, including the old chapel situated in the northeast corner of the quadrangle. A new structure housing the Field artillery Museum will open to the public in 2009.

Naval War College Museum Naval Station, Newport www.nwc.navy.mil/museum			3	48,671	Yes	Yes
The Naval War College Museum collects, preserves, and interprets historical properties that illustrate 1) key concepts in the evolution of maritime strategy and naval operations from antiquity to the present, 2) the history of naval activity in the Narragansett Bay region from the colonial period to the present, and 3) the institutional history of the Naval War College since 1884.	The museum provides mission-related educational program support for Naval War College staff, faculty, and students, as well as exhibition and public programming to inform their families and the public, in general, of the Naval War College and the history of the Navy in the Narragansett Bay area.	The Museum building, Founder's Hall, is part of the Naval War College complex. It includes outdoor exhibits on the College grounds as well as historical displays and artwork throughout the College with occasional temporary exhibit loans to museums and galleries in the city of Newport. The main building is an historic, three-story, stone building, built in 1820 by the City of Newport, and donated to the Navy by the City and State in 1884 for use as the first Naval War College building. Additional archival and artifact storage is located in the War College's Mahan Hall and in Building 12 on board NS Newport.

Adjutant General Corps Museum						
Fort Jackson www.army.mil/CMH/Museums/links.htm			1	3,158	No	No
The Adjutant General Corps Museum was established in 1996 and depicts the story of the Adjutant General Corps from 1775 to present. The Adjutant General Corps Museum is part of the Fort Jackson Museum Community and is co-located with the Finance Corps Museum. The museum tells the rich history of the Adjutant General's Corps's 231 years of providing quality personnel support to the soldiers, civilians, and the families which make up the Army.	The Adjutant General Corps Museum is the responsible steward of the Army's heritage assets specific to Adjutant General Corps that includes accountability, preservation, and security of more than 400 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Adjutant General Corps and promotes esprit de corps for current and future generations of Soldiers.	The main museum complex is a former post theater that now houses both the Adjutant General Corps Museum and the U.S. Army Finance Corps Museum. The building is a brick structure typical of the Army installation movie theaters that were built in the 1960s. The facility totals 9,670 sq ft and is divided between the two museums. The second facility is a shared storage area (2,500 sq ft) that is utilized by both the Adjutant General and Finance Corps Museums.				
Fort Jackson Museum						
USATC and Fort Jackson www.army.mil/CMH/Museums/links.htm			2	12,028	No	No
The mission of the Fort Jackson Museum is to collect, preserve, exhibit, interpret, and account for historically significant property related to the history of Fort Jackson from 1917 to the present and the training of the soldiers. The museum was established in 1972 with an initial collection of only 20 artifacts. Today, the collection has grown to over 4,000 historical items. These artifacts are used to facilitate the training and education of soldier and civilian visitors. Using an assortment of military weapons, uniforms, and other equipment museum visitors have an opportunity to see how the American soldier has been trained to perform his duties in peacetime and war.	The Fort Jackson Museum is the responsible steward of the Army's heritage assets specific to Fort Jackson that includes accountability, preservation, and security of more than 3,746 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Fort Jackson and promotes esprit de corps for current and future generations of Soldiers.	The facility is temporarily closed pending renovation of its facility. It will open in May of 2010.				

Museums

4th Infantry Division Museum						
Fort Hood	www.army.mil/CMH/Museums/links.htm		0	0	No	No
The 4th Infantry Division Museum addresses the history of the 4th Infantry Division from 1917 to present day. Additionally, there is an area devoted to the history of early Camp Hood and the Tank Destroyer forces. Most of the current galleries, however, depict the history of the 4th Infantry Division. The 4th Infantry Division, activated in 1917 was one of the first American divisions to be sent into combat in World War I. Exhibits begin with the activation and training of the Division at Camp Greene, North Carolina in 1917.	The 4th Infantry Division Museum is the responsible steward of the Army's heritage assets specific to 4th Infantry Division that includes accountability, preservation, and security of more than 6,000 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of 4th Infantry Division and promotes esprit de corps for current and future generations of Soldiers.	The museum is closed pending the construction of a new facility at Fort Carson in 2012.				

Fort Bliss Museum						
Fort Bliss	www.army.mil/CMH/Museums/links.htm		4	4,400	Yes	No
The mission of the Fort Bliss Museum is to identify, collect, research, preserve, and interpret historically significant properties, and maintain them as a useable resource for scholars; to further community relations, as well as enhance morale, and provide training to the military and civilian communities. The museum features chronological exhibits that interpret the history of the presence of the U.S. Army in the El Paso area. The exhibits include many historical artifacts, vehicles, uniforms, and images which illustrate the rich heritage of the soldiers who lived and worked at Fort Bliss from its inception as a small frontier post to its present role as a large, space-age U.S. Army installation.	The Fort Bliss Museum is the responsible steward of the Army's heritage assets specific to U.S. Army in the El Paso area that includes accountability, preservation, and security of more than 9,458 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of the U.S. Army in the El Paso area and promotes esprit de corps for current and future generations of Soldiers.	The main gallery is located in Building 1735 (3,300 sq ft). Also, the replica of the "Old Fort Bliss" facility (1,110 sq ft) serves as educational facility and consists of period room exhibits that depict how soldiers and civilians lived and worked in the area during the mid-nineteenth century. The museum also has two storage facilities. Accredited by the American Association of Museums.				

Fort Sam Houston Museum						
Fort Sam Houston	www.army.mil/CMH/Museums/links.htm		3	16,000	Yes	Yes
The mission of the Fort Sam Houston Museum is to collect, preserve, exhibit and interpret artifacts related to the history of Fort Sam Houston (including its antecedents) and the history of the U.S. Army in San Antonio from 1845 to the present. This includes the facilities and activities at the installation, the units, individuals and organizations which served there, the activities and events influenced by the post and the operations of the Army in this region.	The Fort Sam Houston Museum is the responsible steward of the Army's heritage assets specific to Fort Sam Houston that includes accountability, preservation, and security of more than 5,279 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Fort Sam Houston and promotes esprit de corps for current and future generations of Soldiers.	With almost nine hundred structures (the largest number on any DoD installation) within its National Historic Landmark District, Fort Sam Houston has a major challenge maintaining its historic buildings to the Department of the Interior Standards. Known as the "Home of Army Medicine," the installation has a historical significance which has extended far beyond the Medical Department and has had an important impact on the Army at large.

U.S. Army Air Defense Artillery Museum

Fort Bliss	www.bliss.army.mil/Museum/fort_bliss_museum.htm		4	108,000	Yes	No
The mission of the U.S. Army Air Defense Artillery Museum is to provide educational services to include programs, classes, exhibits, audiovisuals and publications for use by the Air Defense Artillery School, Advanced Individual Training, and NCO Academy. The U.S. Army Air Defense Artillery Museum, the branch museum for the Air Defense Artillery School at Fort Bliss, includes a unique collection of anti-aircraft weapons and military equipment that dates from World War I to present. The museum was established in 1974 and officially opened to the public the following year in a renovated service club that was built in 1941. The museum was accredited by the American Association of Museums in 1982.	The U.S. Army Air Defense Artillery Museum is the responsible steward of the Army's heritage assets specific to Air Defense Artillery School, Advanced Individual Training, and NCO Academy that includes accountability, preservation, and security of more than 9,251 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Air Defense Artillery School, Advanced Individual Training, and NCO Academy and promotes esprit de corps for current and future generations of Soldiers.	The museum is closed pending its relocation to Fort Sill in 2012.				

U.S. Army Medical Department Museum

Fort Sam Houston	www.army.mil/CMH/Museums/links.htm		4	45,000	No	Yes
The primary mission of the U.S. Army Medical Department (AMEDD) Museum is to support the training and education of students of the AMEDD Center and School and to provide information to the public regarding the history of the Medical Department and contributions of military medicine to medical science. The collection consists of medical equipment, uniforms, insignia, artwork, and U.S. Army medical vehicles, aircraft, and rail car. The museum also collects, preserves, exhibits, and interprets historically significant property related to the history of the Army Medical Department from 1775 to present.	The AMEDD Museum is the responsible steward of the Army's heritage assets specific to U.S. Army Medical Department that includes accountability, preservation, and security of more than 4,400 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of U.S. Army Medical Department and promotes esprit de corps for current and future generations of Soldiers.	The AMEDD Museum is in a purpose-built facility, constructed in three phases. Phase I opened in 1989 with an exhibit hall and administrative wing totaling 17,000 sq ft. Phase II, completed in 1998 added another 5,500 sq ft exhibit hall, workshop, loading dock, collections area, and outdoor pergola for exhibiting vehicles and aircraft. Phase III added additional collections space, an office for our foundation, and an aeromedical evacuation pergola dedicated in 2006. It also added additional grounds to the museum which now totals about seven acres. The main building now totals 40,000 sq ft.

Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark

U.S. Army Museum of Noncommissioned Officers Fort Bliss www.army.mil/CMH/Museums/links.htm			1	11,500	No	No
The mission of the U.S. Army Museum of the Noncommissioned Officer is to collect, preserve, exhibit and interpret historically significant property related to the history of the U.S. Army Noncommissioned Officer from 1775 to the present. The museum supports military training and education, conducts research, stimulates esprit de corps and morale, and informs the public of the noncommissioned officer's service to the nation.	The museum is the responsible steward of the Army's heritage assets specific to U.S. Army Sergeants Major Academy that includes accountability, preservation, and security of more than 4,137 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of U.S. Army Sergeants Major Academy and promotes esprit de corps for current and future generations of Soldiers.	The museum is housed in a cinderblock building built in 1951 as an Officers Mess. In 1978 the building underwent a renovation to create a museum building. In 1990 the west wing of the building was added through private Association funds, thus doubling the size of the museum.

Air Force

History and Traditions Museum Lackland Air Force Base			2	9,300	No	No
The History and Traditions Museum was established in 1956 to educate Airmen and interpret the history of the U. S. Air Force. The museum's main focus is the heritage of the Air Force Enlisted Training for the 37th Training Wing (home of all Air Force basic military training) and Air Education and Training Command. The museum is responsible for managing 40 static display aircraft, over 600 historical artifacts, two detachment historical accounts, and a research library and archives. Other functions include educational outreach, exhibit development, base heritage development, and conservation and preservation of the Air Force historical property. Museum hours of operation are Monday through Friday from 9:00 a.m. to 4:00 p.m.	The museum's mission is to exhibit the illustrious heritage of the enlisted airman and educate new airmen and the public on their roles and accomplishments. Since 1947, the U.S. Air Force has graduated nearly seven million Airmen at Lackland Air Force Base, and the museum is instrumental in preserving the Air Force's legacy. The museum's extensive historical aircraft collection offers airmen in training a first hand interpretation of U.S. Air Force aerospace development that spans back to World War I. Annually, 12,000 visitors tour the museum facility and over 80,000 visitors tour the aircraft sites that also serve as a background exhibit during the weekly U.S. Air Force Airman Graduation Ceremony. The museum offers interpretive educational services on aerospace history to various local and regional public schools.	The museum is housed in a modified World War II-era wooden structure with 8,940 sq ft. Exhibits consist of wall murals, a World War I aircraft fuselage, uniforms, and equipment cases. The building also provides staff offices, artifact storage, and workshops. The museum's historical static display aircraft collection is divided into three large outdoor parks, each representing different eras in the Air Force history. Additionally, the museum shares 360 sq ft of artifact storage with the Security Forces Museum at a geographically separate facility.				

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
U.S. Air Force Security Forces Museum						
Lackland Air Force Base			1	9,510	No	No
The U. S. Air Force Security Forces Museum collects, preserves, interprets, and exhibits the history and heritage of the Air Force Security Forces from inception as Air Police in 1947 through the change to Security Police during the Vietnam Era, and into present day contingency missions as Security Forces. Currently, the museum exhibits and interprets nearly 1,300 unique artifacts pertinent to Security Forces culture and history. Since 1979 the museum has expanded from 2,700 to 9,510 sq ft of space, which includes an educational classroom/auditorium for various events and ceremonies. The museum is open to all active duty, reserve, and retired military and the general public by appointment. Museum hours of operation are Monday through Friday from 7:30 a.m. to 4:30 p.m. with extended hours during daylight savings time to accommodate visitors.	The Security Forces Museum is currently aligned under the 37th Training Wing. The museum supports the 37 TRG/343 TRS by providing classroom and briefing rooms to accommodate over 5,000 officer and enlisted Security Forces students annually. The 343 TRS is the home of the Security Forces 65-Day Apprentice and 78-Day Officer Courses. Further, the museum provides a setting for official events and ceremonies by the Air Force Security Forces Center that is headquartered at Lackland Air Force Base. The museum also serves as the central archives for all aspects of historical Security Force archival material and is utilized by the public and military students, publishers, researchers, public affairs, and retirees.	The museum is housed in a modified and renovated World War II-era structure with 5,200 sq ft of exhibit space, 3,260 sq ft of administrative, exhibit storage, and reference library space, and 1,050 sq ft auditorium/classroom space. The exhibits interpret significant events and operations in the career field from the beginning of the Air Force in 1947 to the current day. The building also contains staff offices, a records room, artifact and archival collections storage. Additionally, the museum shares 360 sq ft of artifact storage with the History and Traditions Museum at a geographically separate facility.

Air Force

Hill Aerospace Museum						
Hill Air Force Base www.hill.af.mil/museum			6	155,983	Yes	No
The purpose of the Hill Aerospace Museum is to improve the combat capability of our Air Force by serving as its home front advocate to visitors throughout the inter-mountain West and from around the world. We strive to achieve this goal by collecting, preserving, interpreting, and exhibiting historical information and artifacts related to the history of Hill Air Force Base, its tenant organizations, the Ogden Air Logistics Center, and aviation in the state of Utah. The museum enhances U.S. Air Force efforts in the recruiting and retention of military personnel by stirring the imagination, reinforcing interest in aviation, and influencing the choice of branch of service. The museum also strengthens U.S. Air Force relations with local communities by hosting special events and exhibitions, offering educational outreach programs, and providing exciting interpretive displays.	The Hill Aerospace Museum has become the face of the U.S. Air Force to the people of the Inter-mountain West and beyond by preserving and presenting the stories of Air Force men and women to a large and increasingly diverse audience. This is done through innovative exhibits and displays as well as docent and self-guided tours. In addition, the museum hosts hundreds of special events each year with the goal of honoring those who serve in ways that allow the public to "participate" in these events by observing such functions as retirements, pin-ons, and changes of command. The result is an increased pride in military service members and a renewed sense of patriotism for our nation. The museum has become an ever improving, "must see" destination. As a well established entity, the museum will also play a key role in "anchoring" the Enhanced Use Lease program on the North end of	The museum consists of six facilities totaling 155,983 sq ft on a total of 34 acres. The primary facility consists of three joined display facilities totaling 125,000 sq ft. The next largest facility, Building 1919, is the museum's restoration space. It is a total of 11,878 sq ft. Buildings 1961 and 1962, a World War II-era Barracks and Chapel, measure 1,250 sq ft and 3,793 sq ft, respectively. The museum is also responsible for two storage facilities which have been damaged beyond repair and are scheduled for demolition. Their total square footage is 14,062. The final facility under the museum's care is a 467 sq ft equipment pad.

Casemate Museum						
Fort Monroe www.army.mil/CMH/Museums/links.htm			1	66,728	Yes	Yes
The Casemate Museum depicts the history of Fort Monroe, fortifications at Old Point Comfort, and the U.S. Army Coast Artillery Corps. This early museum consisted of the casemated cell in which the Confederate President Jefferson Davis was imprisoned following the Civil War. Uniforms, insignia, weapons, and military accouterments are exhibited inside the casemated chambers of the oldest section of the largest stone fort ever built in the United States. In addition to these objects, the museum exhibits rare ordnance models of the mammoth coast artillery guns that once defended the nation's shores, archaeological specimens from Fort Monroe's moat and grounds.	The Casemate Museum is the responsible steward of the Army's heritage assets specific to Fort Monroe that includes accountability, preservation, and security of more than 7,400 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Fort Monroe and promotes esprit de corps for current and future generations of Soldiers.	This facility was opened to the public in 1951 after an extensive renovation that was funded by a local volunteer organization. The museum exhibits are inside the casemated chambers of the oldest section of the largest stone fort ever built in the U.S.

Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark

National Museum of the United States Army Fort Belvoir www.armyhistory.org			0	0	No	No
The National Museum of the U.S. Army will be a permanent historical and educational institution and a world-class national military museum. Housed in exceptional venues and possessing an extensive collection of artifacts, archives, and art. The new museum will display the best of the U.S. Army's extensive collections. Through its education and public outreach efforts, the museum will serve and support the Nation, the Army's installations and its Soldiers, and forge relationships with the community, veterans, other museums, supporting organizations and government bodies at all levels.	The National Museum of the U.S. Army will be the responsible steward of the Army's heritage assets specific to the overall Department of the Army that includes accountability, preservation, and security of more than 45,800 historical artifacts. In addition, the museum will provide a unique educational venue for Soldiers, their families, and the local community. The museum will also preserve the institutional history of the overall Department of the Army, promote esprit de corps for current and future generations of Soldiers, and provide the Army a venue to forge close connections to the general public.	The proposed phase I of this project will design a new museum complex to support approximately 150,000 sq ft of internal spaces, on adequate acreage for support of museum and outdoor educational activities (estimate 50 acres) adjacent to the Fairfax County Parkway. Phasing will be required due to incremental funding of the construction of the project.				

The Old Guard Museum Fort Myer www.army.mil/CMH/Museums/links.htm			0	0	No	No
The mission of the museum is to collect, preserve, interpret and exhibit artifacts related to the history of the 3d U.S. Infantry from its inception to the present. The museum provides training and educational services to include programs, exhibits, and publications for use by the 3d U.S. Infantry, the Military District of Washington, and the military and civilian populations. The museum seeks to enhance morale, esprit de corps and unit effectiveness of the 3d U.S. Infantry (The Old Guard) through the identification of Soldiers with the history and traditions of their regiment.	The Old Guard Museum is the responsible steward of the Army's heritage assets specific to Old guard that includes accountability, preservation, and security of more than 1,950 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of The Old Guard and promotes esprit de corps for current and future generations of Soldiers.	The museum is closed pending the renovation of a suitable building in the historic district of Fort Myer. Collections are in storage.				

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
U.S. Army Corps of Engineers Museum Humphreys Engineering Center			1	3,200	No	No
The U.S. Army Corps of Engineers Museum was established as a MACOM museum. The mission of the museum is to collect, preserve, and interpret the long and rich history of the Corps of Engineers. A Corps of Engineers was initially created during the Revolutionary War, but it did not become a permanent institution until 1802. It is an organization with a proud record of service to the nation since its establishment, providing vital military engineering, civil engineering, water resource management, and disaster response services to the nation.	The U.S. Army Corps of Engineers Museum is the responsible steward of the Army's heritage assets specific to Army engineering that includes accountability, preservation, and security of more than 9,631 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of Army engineering and promotes esprit de corps for current and future generations of Soldiers.	The collection is stored in a military built warehouse on Fort Belvoir.				
U.S. Army Quartermaster Museum Fort Lee www.army.mil/CMH/Museums/links.htm			4	32,040	No	No
The mission of the U.S. Army Quartermaster Museum is to collect, preserve, exhibit and interpret historically significant property related to the history of the Quartermaster Corps from 1775 to the present. The museum traces its origins to 1954, when a collection of historical uniforms, mostly reproductions was acquired by the Enlisted Supply Department of the Quartermaster School, for the teaching of the evolution of military uniforms. By 1956 the collection and scope of activity had expanded with the addition of items from the Test and Development Activity so that a building was dedicated and named the Quartermaster Museum. The museum serves the Quartermaster Center and School as a classroom for the teaching of history. Over 16,000 Soldiers, non-commissioned officers, warrant officers, and officers a year receive instruction in the museum.	The museum is the responsible steward of the Army's heritage assets specific to Quartermaster that includes accountability, preservation, and security of more than 25,500 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The U.S. Army Quartermaster Museum also preserves the institutional history of Quartermaster and promotes esprit de corps for current and future generations of Soldiers.	In 1963, a museum facility was constructed with funds raised by the Quartermaster Memorial Corporation, later U.S. Army Quartermaster Foundation. The museum consists of four buildings: (1) Main Building (25,000 sq ft) which contains main storyline exhibits, the Pieklik Research and Learning Center, and administrative staff offices. (2) Exhibits Workshop (3,140 sq ft) (3) Artifact Storage Facility (2,400 sq ft) for large vehicle/artifact storage. (4) Non-artifact Storage (1,500 sq ft). The museum is accredited by the American Association of Museums.

Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
U.S. Army Transportation Museum Fort Eustis www.army.mil/CMH/Museums/links.htm			4	57,000	No	No
The mission of the U.S. Army Transportation Museum is to collect, preserve, and interpret historically significant properties related to the history of U.S. Army transportation and the evolution and development of American military transportation systems from the colonial period to the present. In fulfilling this mission, the Army Transportation Museum assists in research, supports military training and education through exhibition and interpretation of artifacts, and conducts educational programs associated with the museum's mission.	The U.S. Army Transportation Museum is the responsible steward of the Army's heritage assets specific to U.S. Army transportation that includes accountability, preservation, and security of more than 4,666 historical artifacts. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The museum also preserves the institutional history of U.S. Army transportation and promotes esprit de corps for current and future generations of Soldiers.	The museum originally was located in an abandoned storage building and opened to the public in 1959. It moved to its present facility, funded by donations raised through the Army Transportation Museum Foundation, in 1976. Since then, the foundation also has provided a large aircraft pavilion, which displays over twenty historic aircraft and a second museum gallery which included 18,000 sq ft of gallery space, new artifact storage area and new foundation offices.				
U.S. Army Women's Museum Fort Lee www.army.mil/CMH/Museums/links.htm			1	12,362	No	No
The mission of the Army Women's Museum is to collect, preserve, research, exhibit, and interpret historically significant properties related to the service of women in the United States Army. The U.S. Army Women's Museum is the only facility of its kind among military museums in the United States that is devoted exclusively to the history of women in the Army. The U.S. Army Women's Museum is an Army-wide museum and its mission includes the service of women across all branches and organizations of the United States Army from inception to present day. The museum has outreach programs designed to reach all age groups from the very young to the senior citizen nationwide and most importantly the military of today.	The U.S. Army Women's Museum is the responsible steward of the Army's heritage assets specific to women in the Army that includes accountability, preservation, and security of more than 5,654 historical artifacts. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The museum also preserves the institutional history of women in the Army and promotes esprit de corps for current and future generations of Soldiers.	In 1997, Congress announced that Fort McClellan would close on 30 September 1999. Fort Lee, Virginia was chosen as the new home of the Women's Army Corps Museum. The new galleries incorporated all the techniques of the modern museum, to include (but not limited to) video, animation, lighting and sound effects. The museum is located next to the Army Quartermaster Museum.

Navy

Hampton Roads Naval Museum National Maritime Center, Norfolk www.hrrm.navy.mil			3	22,243	No	Yes
The Hampton Roads Naval Museum interprets the history of the U.S. Navy in and around Hampton Roads, Virginia from the Revolutionary War to the present day. The museum performs this mission through collection, research, preservation and interpretation of historic artifacts. The museum is also in charge of public visitation and interpretation of the USS Wisconsin, which is in the process of being considered for transfer to the City of Norfolk as a memorial ship under the Navy's ship donation program. Transfer is anticipated in FY2010.	The museum preserves, interprets and maintains the history and heritage of the U.S. Navy in the Hampton Roads region, the largest Fleet concentration area on the east coast of the U.S., for the inspiration and education of active duty and reserve naval personnel, their families, veterans, future Sailors, general public, and future generations of Americans. The American Association of Museums accredited the Hampton Roads Naval Museum in December 2008, an impressive accomplishment achieved by only 4% of all federal museums.	The Museum consists of exhibit and office space located within the National Maritime Center (NAUTICUS); the USS Wisconsin, an Iowa-class battleship, moored next to the museum; and partial use of two warehouse/office buildings on board Naval Station Norfolk for artifact processing, storage and records. The museum uses additional meeting, educational and theater space in the 150,000 sq ft Nauticus structure. The museum space in NAUTICUS is provided without charge, including utilities, parking and security, by the City of Norfolk.

Marine Corps

National Museum of the Marine Corps Marine Corps Base, Quantico www.usmcmuseum.org			11	308,970	Yes	Yes
The National Museum of the Marine Corps preserves and exhibits the material history of the U.S. Marine Corps, honors the commitment, accomplishments, and sacrifices of Marines; supports recruitment, training, education, and retention of Marines; and provides the public with a venue for the exploration of U.S. Marine Corps history. The museum collects and provides stewardship for objects; interprets history through exhibitions, publications, and programs; conducts research; and develops and delivers educational programs. The museum contributes to recruitment, education, and retention of Marines by inspiring visitors and providing education opportunities.	The National Museum of the Marine Corps contributes to recruitment, training, education, and retention of Marines and provides the general public with a greater understanding of the history of the service within the context of world affairs.	The 118,000 sq ft National Museum of the Marine Corps opened to the public in early FY2007. The balance of its space is located in ten other buildings on MCB Quantico, ranging widely in quality, age, condition, and size. These buildings provide housing for collections not on exhibit, office and work space for most of the staff, limited exhibit fabrication capabilities, and restoration activities. Additionally, the art collection is housed off-Base in a rental climate-controlled storage facility (8,000 sq ft).

Fort Lewis Military Museum						
Fort Lewis www.army.mil/CMH/Museums/links.htm			1	28,847	Yes	No
The Fort Lewis Military Museum was established to collect, preserve, and interpret historical artifacts and information relevant to Fort Lewis and the units which have served here. It also interprets the role of the U.S. Army in the early history of the Pacific Northwest. The museum is active in the education of military personnel. Classes and programs are frequently conducted in the galleries to promote historical knowledge and an appreciation of our military heritage. Tours and programs are also offered to the community to highlight the history and heritage of Fort Lewis and the U.S. Army.	The Fort Lewis Military Museum is the responsible steward of the Army's heritage assets specific to Fort Lewis that includes accountability, preservation, and security of more than 6,606 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The Fort Lewis Military Museum also preserves the institutional history of Fort Lewis and promotes esprit de corps for current and future generations of Soldiers.	The museum is housed in the historic Red Shield Inn, which was built during World War I by the Salvation Army. The Fort Lewis Museum features five distinct galleries that highlight significant aspects of Army history.

Navy

Naval Museum Northwest						
Naval Base Kitsap, Silverdale and Puget Sound Naval Shipyard, Bremerton www.keyportmuseum.cnrnw.navy.mil			2	80,000	No	No
Navy Museums Northwest collects, preserves, and interprets specific themes of naval heritage on a national and regional basis for the benefit of the U.S. Navy and the people of the United States. It also provides consolidated management, personnel, and financial support and services for the museum's two units: the Naval Undersea Museum at Naval Base Kitsap in Keyport and the Puget Sound Navy Museum in Bremerton.	The Naval Undersea Museum is the primary national organization, military or civilian, that collects, preserves, and interprets the undersea heritage of the U.S. Navy. It performs the following core functions: 1) interprets naval undersea heritage to the active duty military and the general public; 2) ensures the survival and preservation of significant undersea material and equipment. The museum is accredited by the American Association of Museums. The Puget Sound Navy Museum interprets the history and operations of the U.S. Navy in the Pacific Northwest. It performs the following core functions: 1) records and displays the naval heritage in a four-state region; 2) preserves and interprets naval shipyard history with an emphasis on Puget Sound Naval Shipyard. Both museums: 1) support U.S. Navy core values and inspire Sailors to individual achievement; and 2) transmit naval pride and traditions from one generation to the next.	The Naval Undersea Museum is located in Keyport on U.S. Navy property outside the main gate of the Naval Undersea Warfare Center. Purpose-built as a museum, with funds raised by the Naval Undersea Museum Foundation, the building has three floors and a basement. The modern, well-maintained building includes 23,000 sq ft of exhibit space; 20,000 sq ft of artifact storage; and a 450-seat auditorium; as well as smaller areas for two classrooms, a lobby, a library, restrooms, a museum store, and staff offices. The Puget Sound Navy Museum is located on city property in Bremerton adjacent to Puget Sound Naval Shipyard and the Washington State ferry terminal. The structure, which was the original 1896 administration building for the shipyard, is owned by the City of Bremerton. The building, extensively renovated in 2006-2007, has two floors of exhibit space and artifact storage in the basement. The Navy has a dollar-a-year lease for the building; the City of Bremerton pays for utilities and exterior maintenance.

Fort McCoy Historical Holding						
Fort McCoy www.mccoy.army.mil/FactsSheets/index.asp?id=comarea			6	23,805	No	No
Fort McCoy's Commemorative Area is designed to preserve the installation's heritage and to educate the community about Fort McCoy's role as a military training and mobilization site since 1909. The history of Fort McCoy is told in chronological order through displays of uniforms, wall art, and artifacts. The entire Commemorative Area, its six facilities, static equipment displays, and artifacts are managed in accordance with Center of Military History standards.	The Fort McCoy Historical Holding is the responsible steward of the Army's heritage assets specific to Fort McCoy that includes accountability, preservation, and security of more than 1,790 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The Fort McCoy Historical Holding also preserves the institutional history of Fort McCoy and promotes esprit de corps for current and future generations of Soldiers.	During 1993, five buildings were selected to be preserved as a commemorative area. These buildings were selected because their appearance had not been altered significantly since their construction in 1942. Each building remains structurally sound. Together, the buildings are representative of a standard company block layout found throughout the original cantonment area.

Air Force

Warren ICBM & Heritage Museum						
F.E. Warren Air Force Base www.pawnee.com/fewmuseum			4	16,806	Yes	Yes
The mission of the Warren Heritage Museum is to collect, preserve, exhibit and interpret historical and cultural materials related to the Intercontinental Ballistic Missile program of the U.S. Air Force, and to collect, preserve, exhibit and interpret materials related to the history of F. E. Warren Air Force Base and its predecessors, Fort F. E. Warren, Cheyenne Quartermaster Depot and Fort D. A. Russell. The museum has a very active out-reach program to reach the people in the surrounding areas of Wyoming, Colorado, and Nebraska which is necessary due to the security and accessibility to the base.	Through preservation and exhibit of historic materials the significance of F. E. Warren Air Force Base and the U.S. Air Force Intercontinental Ballistic Missile program is made available to and interpreted for the Air Force community and general public.	The primary building of the museum is housed in the historic Post Administration building built in 1894. The museum collection consists of over 2,500 historic objects to tell the mission of the museum. The exhibits upstairs tell the rich 140 years of base history while the first floor and the annex exhibits tell the story of the Intercontinental Ballistic Missile systems in the Air Force. Building 210 - 6,802 total sq ft; Building 211 - 1,400 total sq ft; Building 329 - 8,460 total sq ft (Historic Veterinarian Hospital built in 1908, presently used as storage.); and Building 1470 - one room for storage 144 sq ft.

Army

1st Armored Division Old Ironside Museum						
Smith Barracks, Baumholder www.army.mil/CMH/Museums/links.htm			0	0	No	No
To preserve, study and interpret the history and material culture of the 1st Armored Division during the period 1940 to the present, with attention to the 7th Cavalry Mechanized Brigade (1933-1939) as it relates to the former. This includes support and operation of the museum facility and implementation of mission-related education and training for assigned military personnel.	The museum is the responsible steward of the Army's heritage assets specific to 1st Armored Division that includes accountability, preservation, and security of more than 2,048 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of 1st Armored Division and promotes esprit de corps for current and future generations of Soldiers.	The 1st Armored Division Museum has closed and is re-locating to Fort Bliss Texas. It will re-open in 2010.				
2d Cavalry Regiment - Reed Museum						
Vilseck			0	0	No	No
To preserve, study and interpret the history and material culture of The 2d Cavalry Regiment's "Reed Museum" which tells history of the 2d Regiment of Dragoons founded on 23 May 1836, through its current military operations today. The focus of the educational programs is to educate the modern soldier about their unit's past and to train them for future operations and conflicts using current vehicles and displays. Additionally, the programs educate the public about the history of the Cavalry.	The 2d Cavalry Regiment - Reed Museum is the responsible steward of the Army's heritage assets specific to 2d Armored Cavalry that includes accountability, preservation, and security of more than 252 historical artifacts. In addition, the museum provides a unique educational venue for Soldier's, their families, and the local community. The museum also preserves the institutional history of 2d Armored Cavalry and promotes esprit de corps for current and future generations of Soldiers.	The unit's museum activity has relocated from Fort Lewis, WA to Vilseck Germany and is temporarily closed. The new museum facility will be converted into museum space with permanent exhibits, once the building has been renovated from its current configuration the museum's artifacts and exhibits will be set up and the museum will be open to the Soldiers, their families and the Germany community.

Appendix B

FY2009 Funding for Military Museums

Appendix B contains a breakdown of each military museum's funding totals for FY2009. The analysis follows the following budgetary categories:

DoD Appropriations

Secretaries of the Military Departments dispense appropriated funds to their respective Services for their museum programs. DoD receives appropriated funding for museums primarily through Operation and Maintenance (O&M), Military Personnel, Military Construction, and Procurement appropriations.

- Operation and Maintenance - Military Service O&M appropriation is separated into the following categories:
 - Non Personnel- Operations costs for utilities, cleaning, and maintaining the artifacts on display and in storage, and any other costs not related to either civilian pay or facilities.
 - Civilian Pay- Pay of the professional staff of the museum.

- Facilities- Costs to construct, maintain, or improve the museum or grounds of the museum.
- Total O&M- Total of the above categories.
- Military Personnel- Pay and allowances of military personnel assigned to the museum.
- Military Construction- Appropriated Military Construction funds, whether line items appropriated by Congress or Minor Construction funds provided by the Military Service used in support of the museum structure or grounds.

Non-Appropriated Fund Instrumentalities

Pay of personnel or cost of any service or maintenance provided through the collection of fees by the government under the auspices of the Non-Appropriated Fund Instrumentalities rules.

Total Federal

Sum of all DoD Appropriations and Non-Appropriated Funds.

Other Sources

Funds provided by private support organizations or other donations outside the Federal government in support of the museum. Appendix D, FY2009 Additional Information on Military Museums, contains additional information on support organizations.

Grand Total

The sum of all of the above categories.

Section 489 of Title 10, United States Code, Report on Department of Defense Operation and Financial Support for Military Museums, requested that any other Federal appropriations be identified. None were identified in the data collection.

* The facilities cost information in this report is a combination of modeled sustainment data based on square footage and building category, estimated costs and actual expenditures. Modeled costs are derived from a standardized model for forecasting facilities sustainment resource requirements, and are thus likely to be significantly greater than actual expenditures. Pending the designation of a common reporting standard for museum facilities, these values should be used with care, and should not be compared with other cost categories that report actual spending.

Appendix C

FY2009 Management Structure for Military Museums

Appendix C contains information regarding the management structure of Military Museums. This includes information on each military museum's management structure, employee numbers, and roles. Employees at military museums include both civilian and armed forces personnel at full and part-time positions.

Though management and employee roles vary between museums, most museums have a museum director or a museum curator who is in charge of daily control of the museum's collections and holdings. Support staff include museum and exhibit specialists, assistant curators, historians, and restoration posts. Support staff assist with museum operations, including developing the museum's operational budget, accessioning and deaccessioning artifacts, developing educational programs, and managing personnel.

Total	93	510	13	55	7

See State pages for Management Structure and Employee Role descriptions.

Army Management Structure: The management structure of Army museums may vary depending on the size and scope of the museum's historical collection. However, each Army museum is staffed with an experienced Museum Curator (Director) who oversees the professional operations of the museum, which includes administration, physical security, property accountability, exhibit production, training and education. Subordinate staff may include a registrar, museum specialist, and/or exhibit specialist.

Air Force

National Museum of the United States Air Force				
Wright-Patterson Air Force Base www.nationalmuseum.af.mil				
Management Structure: The National Museum of the United States Air Force is a direct reporting unit of Headquarters Air Force Materiel Command. A Board of Directors appointed by the Secretary of the U.S. Air Force provides overall governance ratifying strategic planning activities, and reviewing progress attained toward mission accomplishment. The Historian of the U.S. Air Force provides technical historical and policy guidance to the Director. The Director's immediate supervisor is the Commander, Air Force Materiel Command. The Director forecasts, develops, and justifies resources to include budget, manpower, facilities, and acquisitions.				
Employee Roles: The National Museum of the United States Air Force employs 96 full-time staff members. The Director provides planning, policy, technical, and administrative supervision to a workforce of 96 full time federal employees and approximately 500 volunteers through ten division chiefs. The areas of responsibility of the division chiefs include: plans and programs, management support, special events, public affairs, operations, restoration, education, exhibits, research, and collection management. Beyond the National Museum, the Director also provides technical and professional guidance to almost 400 military and civilian museums and heritage activities around the world that hold nearly 50,000 artifacts on loan from the National Museum. The workforce directed includes museum professionals in the specialties of curator, collection management, archives and research, conservation, restoration, education and exhibits.

Air Force

History and Traditions Museum				
Lackland Air Force Base				
Management Structure: The History and Traditions Museum is aligned under the 37th Training Wing (37 TRW). Funds are allocated based on previous fiscal year spending identified to the Wing Staff Agency Resource Advisor. The 37 TRW Vice Commander reviews funding requirements and assigns priorities. The 37 TRW Plans and Programs finalizes the budget based on input from the museum director. The 37 TRW Vice Commander makes decisions for unfunded requirements.				
Employee Roles: The History and Traditions Museum employs one full-time Museum Director (YA-1015-02), who reports to the Chief, History and Research. The director identifies, collects, preserves, and conserves historical artifacts on loan from the U.S. Air Force Heritage Program collection. The director accessions and catalogues donated or transferred artifacts into the official collection, biennially inventories and certifies the collection, and maintains and provides proper disposition of museum related records. The director supervises and conducts all aspects of field museum operations, develops and maintains a budget and strategic plan consistent with the field museum's mission and scope of collections statements, creates interpretive exhibits using the museum's collection, and develops educational and training programs to support the 37 TRW mission.				
	1	0	0	0

U.S. Air Force Security Forces Museum				
Lackland Air Force Base				
Management Structure: The U.S. Air Force Security Forces Museum is aligned under the 37th Training Wing (37 TRW). Funds are allocated based on previous fiscal year spending and any new missions/requirements that have been identified to the Wing Staff Agency Resource Advisor. The 37 TRW/CV has final approval. Any requirements that cannot be met due to lack of funds are identified as "unfunded requirements". Museum requirements compete with all other Wing Staff Agencies for appropriated funds. The 37 TRW/CV makes decisions on unfunded requirements. The 37TRW/XP incorporates the museum budget into the overall Wing budget based on information compiled by the Museum Director. The Museum Director approves acquisitions that fit within the budget allocated by the Resource Advisor.				
Employee Roles: Current staffing is one full-time term civilian employee (a professional Museum Director, YA-1015-02), who reports to the Chief, History and Research. The director identifies, collects, preserves, and conserves historical artifacts on loan from the U.S. Air Force Heritage Program collection. The director accessions and catalogues donated or transferred artifacts into the official collection, biennially inventories and certifies the collection, and maintains and provides proper disposition of museum related records. The director supervises and conducts all aspects of field museum operations, develops and maintains a budget and strategic plan consistent with the field museum's mission and scope of collections statements, creates interpretive exhibits using the museum's collection, and develops educational and training programs to support the 37 TRW mission.

Air Force

Warren ICBM & Heritage Museum				
F.E. Warren Air Force Base www.pawnee.com/fewmuseum				
Management Structure: The Warren ICBM & Heritage Museum falls under the direction of 90th Missile Wing Commander, the 90th Vice Wing Commander, and the immediate supervisor is the Director of Staff. The Museum Director/Curator works directly for the 90th Space Wing. The Assistant Curator and Administrative staff are subordinate to the Museum Director. The Museum Volunteers are supervised by museum staff. All artifact acquisitions are made with prior approval of Wing Commander, AFSPC/HO and then NMUSAF has final approval as described in AFI 84-103. The process is two-fold. The Financial Analysis office at F.E. Warren Air Force Base determines what funding to authorize each organization by looking at previous years expenditures and input from the Resource Advisor. B23 Due to budget constraints this year as well as past years the funding for the base has been scarce for wing staff agencies, which includes the museum. The funds are prioritized by looking at the mission of the organization. The more critical the mission the more attention and funding the organization will receive. Critical is defined here as if the organization does not receive funding, the mission of the base will fail.	2	0	0	1
Employee Roles: The Warren ICBM & Heritage Museum employs two full-time civilian staff members and one part-time armed forces personnel, Museum Curator/Director (GS-11), Museum Assistant Curator (GS-9), and part-time Reservist Administrator (E-6). The Museum Director oversees day-to-day operation of the museum and educational programs at the museum. Curator conducts tours, care of artifacts and exhibition of the museum. The museum administrator completes all office duties, assist giving tours and research requests, participates in out-reach activities.

Appendix D

FY2009 Additional Information on Military Museums

Appendix D contains additional information on DoD museums not requested in Section 489 of Title 10, United States Code, Report on Department of Defense Operation and Financial Support for Military Museums. This Appendix includes information on museum educational affiliations, partnerships with non-DoD entities, visitors, and volunteers.

The purpose of military museums cannot be described without referencing the role museums play in U.S. troop education and training programs. Many military museums are located near training centers, libraries, and educational facilities, offering students and trainees hands-on access to historic artifacts and records and enriching their educational experience. DoD museums provide unique opportunities and important lessons for our servicemen and servicewomen, their families, and the public.

Marine Corps Recruit Depot Command Museum					
Marine Corps Recruit Depot San Diego www.mcrdsdhistory.com/comm_museum.htm					
Educational Affiliations: The museum is an integral part of the Marine Corps Recruit training process, serving as a historical education focus for approximately 20,000 recruits annually. The museum staff includes an Education Specialist to facilitate partnerships with the San Diego school district and supports PME for active duty military personnel and a visiting lecture series. Non-DoD Entities: The museum receives support from a 501(c)(3) non-profit foundation, the Marine Corps Recruit Depot Museum Historical Society. The Society has 700 active members, an elected Board of Directors, a nominated Board of Advisors, three full-time paid staff and three part-time staff. The Society's revenues include fundraising, grants, investments, profits from the museum store, and membership. Salaries for the Society staff are paid by the Society. Donations made by the Society to the museum are in direct support of Command approved programs such as the T-56 docents, design and construction of new exhibits, and sponsorship of educational seminars and lecturers. The museum/Command MOU details roles and responsibilities.	Marine Corps Recruit Depot, local school districts	Marine Corps Recruit Depot Museum Historical Society	199,968	0	12

Air Force

Air Force Flight Test Center Museum					
Edwards Air Force Base www.edwards.af.mil/museum					
Educational Affiliations: The Air Force Flight Test Center Museum supports educational tours from area school districts hosted by Edwards Air Force Base public affairs as well as Boys and Girl Scout groups. Air Force recruiters bring tours to the museum, and NASA student interns are brought to the museum by NASA Dryden Flight Research Center. Tours for students who may become engineers are hosted with the Flight Test Outreach Lead of the 812th Test Support Squadron at Edwards AFB. Additionally, significant and complex exhibits have been sited at gateways to Edwards Air Force Base to increase visitation, although no mechanism exists for tallying these additional visits. The museum works with the Society of Experimental Test Pilots to preserve and present test flight history, and is conferring with that organization to map out common areas of interest in aerospace education. Non-DoD Entities: The museum has a partnership with Flight Test Historical Foundation (private nonprofit). The foundation is a private organization sanctioned IAW AFI 34-223 and chartered within the State of California.	Close working relationship with base public affairs to support school visits as well as visits by college ROTC units within a 700-mile radius, Edwards, AFB First Term Airmen Center, Desert Warrior (newcomers) Orientation Program, 4H groups and collaboration with STEM educators. Air Force

Air Mobility Command Museum						
Dover Air Force Base http://amcmuseum.org/						
Educational Affiliations: The museum provides heritage training to all airmen leadership classes. The museum provides half day training tours to ROTC and JROTC classes throughout the DelMarVa Peninsula. The museum provides specialized training opportunities for the Security Forces Squadron working dog section and the Dover Air Force Base Fire Department. The museum provides specific subject training for Squadrons upon request. The museum teaches a class fulfilling all requirements for the Aviation Merit Badge for Boy Scouts. The museum operates a summer aviation camp for middle school students in cooperation with Delaware Technical and Community College. The museum provides a comprehensive aviation seminar to all gifted and talented students in the Wicomico County School System. The museum gives all students in the Wesley College Historical Professions program a behind the scenes encounter which provides us with interns and provides the students with hands on experience. The museum also hosts an ongoing series aviation history lectures and presentations.		Delaware Technical and Community College, Wesley College, Wicomico County Gifted and Talented Program	Small Museum Association, Delaware Museum Association, Museums of Greater Dover, Kent County Tourism Corporation, Central Delaware Chamber of Commerce, AMC Museum Foundation	60,000	4	125
Non-DoD Entities: The museum is supported in part by the AMC Museum Foundation (AMCMF) which provides funding for projects, programs and future construction. AMCMF is an IRS registered 501(c)(3) educational non-profit corporation. It is also a registered Private Organization on Dover Air Force Base. There are Memorandums of Understanding between the foundation and the director of the museum and between the foundation and the base. An average yearly contribution to the operation of the museum is over \$55,000. Foundation finances are audited each year by a local accounting firm.

Air Force Armament Museum					
Eglin Air Force Base www.afarmamentmuseum.com/					
<p>Educational Affiliations: The Air Force Armament Museum has an educational partnership with the school systems for scheduled tours, which includes High School/College ROTC programs from within and outside the local community. In addition, the museum supports the DoD Advanced Explosive Ordnance Disposal (EOD) Training School, which also includes the highly critical Improvised Explosive Device (IED) Training Program. In addition, the AFAM Foundation, in conjunction with the local community, established the Engineers for America Program. The Engineers for America (EFA) is an innovative program developed and implemented in partnership with the Okaloosa County School District. The curriculum is designed to stimulate elementary (5th & 6th grade) and middle school (7th & 8th grade) student interest in science and mathematics based on Sunshine State Standards. The goal for 2010 is to bring 1500 students to the museum. In the 2008-2009 school year (last year), 11 different schools and 864 students participated.</p> <p>Non-DoD Entities: The museum has a partnership with Air Force Armament Museum Foundation. Air Force

Museum of Aviation Flight and Technology Center					
Robins Air Force Base					
<p>Educational Affiliations: The museum is both a regional educational institution and a resource for educators and students. The museum's education department has developed innovative programs and partnerships to teach the fundamental principles of math, science and technology, which are the main elements to understanding the theory of flight. Programs include Middle Georgia Youth Science and Technology, designed to go into the schools and increase interest in science and technology; STARBASE Robins provides real-world applications of math and science through simulations and experiments; Mission Quest uses state-of-the-art simulators to apply math and science principles; Aviation Connections and Experiments (ACE), facilitates student participation in science-based hands-on activities; and Wonder Wings, a Pre-K educational program focuses on basic parts of an airplane. The museum hosts the only NASA Teacher Resource Center in the State of Georgia. In FY2009, 48,495 students received hands-on learning from museum programs.</p> <p>Non-DoD Entities: The museum has a partnership with the Museum of Aviation Foundation, Inc. The foundation is a private organization sanctioned IAW AFI 34-223. The foundation augments mission requirements with additional resources as available. Those resources are under the authority and direction of the Museum Foundation President & Chief Operating Officer (COO). The partnership agreement between the Museum Director, the Museum Foundation President & COO, and the WR-ALC Center Commander are delineated in a signed MOU. Funding to construct additional facilities are the responsibility of the Museum of Aviation Foundation.</p>	Local school systems, Middle Georgia Technical College, Southwest Technical College, Macon State College, Georgia Tech, Mercer University, AFA Aerospace Education Foundation, and NASA Aerospace Center	Museum of Aviation Foundation, Inc., and Georgia Aviation Hall of Fame	655,892	0	95

U.S. Naval Academy Museum U.S. Naval Academy, Annapolis www.usna.edu/Museum					
Educational Affiliations: The museum is attached to the U.S. Naval Academy, which prepares young men and women for careers as officers in the Navy and U.S. Marine Corps. The museum exhibits, programs and staff support the intellectual and moral development of midshipmen. Further, the museum provides direct support to the curricula of several academic departments. Non-DoD Entities: The U.S. Naval Academy Foundation, through a syndicate of selected classes, has engaged in a significant capital campaign to raise money for an entire suite of new permanent exhibits for the museum. Approximately \$6 million was gifted to the Naval Academy in October 2007 for the accomplishment of that objective. Affiliations include the American Association of Museums, the Historic Naval Ships Association and the Council of American Maritime Museums. National Cryptologic Museum, National Security Agency					
Fort Meade www.nsa.gov/museum/index.cfm					
Educational Affiliations: The National Cryptologic Museum provides a wide range of interactive, age-appropriate, educational programs that introduce students to the history, science, and technical aspects of cryptology. A separate program meets the needs of home school families with children of varying ages encouraging team work as well as independent research. The museum also provides a parent-led activity for families to entertain and educate as well as prompting family interaction, communication, and discovery. For older students and adults, the museum staff and volunteer docents provide guided tours of the museum's exhibits. Staff also provide a variety of lectures on cryptologic topics to universities and local community organizations. In addition, the museum partners with NSA's Math Education Partnership Program to arrange talks on mathematical topics for students K-12 from local schools. U.S. Army Chemical Corps Museum Fort Leonard Wood www.army.mil/CMH/Museums/links.htm					
Educational Affiliations: The Chemical Corps Museum is attached to the U.S. Army Chemical School. The museum supports all aspects of Chemical School Training. We provide classes for IET, OSET, COBC, COAC, BNCOC, ANCOC and numerous community schools, veteran's organizations and many commercial tour groups. We spend upwards of 10 man-hours per week supporting military training. We provide training to over 7,000 soldiers per year. In addition to supporting the Chemical School Training, student tours from the Military Police School and the Engineer School routinely tour the museum. Non-DoD Entities: The Chemical Corps Museum has a Memorandum of Understanding with the support provided, and the legal basis Chemical Corps Regimental Association (CCRA) for the Association to for the relationship operate the museum gift shop. The museum provides space for the sales shop, an office and storage for the gift shop merchandise.	U.S. Army Chemical School	U.S. Army Chemical Corps Regimental Association	48,070	0	1

Air Force

National Museum of the United States Air Force					
Wright-Patterson Air Force Base www.nationalmuseum.af.mil					
Educational Affiliations: The NMUSAF Education Division partnered with The University of Dayton, Miami University, Hocking College, and 302 public and private schools and over 162 youth organizations. Over 145,000 teachers, students, youth groups, families and adults participated in 1,186 education programs in CY2009. These multi-disciplinary "hands-on, minds-on" programs allow students to explore history, science and mathematics through aerospace topics. Over 13,000 adults participated in a variety of public tours and programs. Visitors received a fascinating overview of the Air Force story through the docent-led "U.S. Air Force Heritage Tour". The volunteer-led weekly "Behind the Scenes" tour provided an in-depth look at current restoration projects. Senior adults also participated in programs focusing on aviation history through the Institute for Learning in Retirement sponsored through the Continuing Education Department of the University of Dayton.		Non-DoD Entities: The NMUSAF is provided significant financial support by the Air Force Museum Foundation (AFMF), a private organization with IRS 501(c)(3) status, sanctioned by AFI 34-223, and operated in compliance with AFI 84-103 and current MOU's. While the NMUSAF is eligible for MILCON funding, the primary fundraising goal of the AFMF is to provide substantial funding for major construction needs and capital expansion of the NMUSAF. Since 1971 the AFMF has contributed to the U.S. Air Force funding valued at \$82 million (FY2008 dollars) for needed museum expansion projects.

Hill Aerospace Museum Hill Air Force Base www.hill.af.mil/museum					
Educational Affiliations: The museum expanded its partnerships with area schools and universities by hosting teacher workshop programs, museum studies interns, and creating a traveling F-16 simulator for classroom use. In conjunction with the Museum Foundation and the Rocky Mountain Space Consortium, 15 interns and teachers from area high schools and universities manned the museum's Aerospace Center for Education (ACE), providing educational interpretation to over 80,000 students this year. These students range in age from preschool to university level. During the fall and winter months, the Museum's Plane Talk lecture series hosts local and national speakers on Saturdays that are open to the public. The museum's		Davis County School District, Weber County School District, Utah Board of Education, Weber State University, Utah State University, Ogden-Weber Applied Technology College, Salt Lake Community College		Aerospace Heritage Foundation of Utah, Air Force Association (Utah Chapter), Rocky Mountain Space Consortium, and Utah Aviation Hall of Fame	
Non-DoD Entities: The museum's primary non-DoD partnership is with the Aerospace Heritage Foundation of Utah, a private nonprofit organization founded in 1982, sanctioned IAW AFI 34-223. The mission of the Foundation is to provide capital support for the museum for facility improvement and expansion, and for those projects for which U.S. Air Force funding is not available. The museum's educational mission is also supported by the Utah Chapter of the Air Force Association, Rocky Mountain Space Consortium, and other donors.				177,691	0

Navy

Naval Museum Northwest					
Naval Base Kitsap, Silverdale and Puget Sound Naval Shipyard, Bremerton					
Educational Affiliations: Navy Museums Northwest has two facilities with different missions/programs under the leadership of one director: The Naval Undersea Museum and the Puget Sound Navy Museum. The Naval Undersea Museum supports the Navy's Starbase Atlantis program for math and science. Museum educational programs include a Distinguished Speakers Series; Engineers Discover "E" Day for science and engineering; summer teen education and ROV program; weekly educational events in summer for children and families; monthly winter educational events for children and families. The museum's training rooms and auditorium also provide a training venue for large numbers of active duty and Navy civilian personnel annually. Non-DoD Entities: The museum is supported by the Naval Undersea Museum Foundation. It is accredited by the American Association of Museums. It is a member of the American Association of Museums, the American Association for State & Local History; the Historic Naval Ships Association; the Washington Museum Association. The Puget Sound Navy Museum is supported by the Puget Sound Navy Museum Foundation. It is improving its operations to seek accreditation by the American Association of Museums in 2 to 3 years. Air Force

Warren ICBM & Heritage Museum					
F.E. Warren Air Force Base www.pawnee.com/fewmuseum					
Educational Affiliations: The museum has an extensive out-reach program touching people in to the surrounding communities which include Wyoming, Colorado and Nebraska where historical presentations are offered along with hands-on educational boxes and traveling flat exhibits which are offered to schools from K-College level, groups of all ages and organizations. The museum has the second oldest web site in the state of Wyoming and has been included in all the tourism web sites in Cheyenne and the State of Wyoming. An audio tour was established for the museum and a historic tour of F. E. Warren Air Force Base through the use of private cell phones visitors can complete personal tours of the museum and the base. This has allowed the family tours which were not supported by Public Affairs in the past a personal tour of the base. A "Junior Missileer" program was created in which young people learn about the science of rockets and missiles. A partnership was established with Wyoming NASA Grant Consortium in which the museum participates in all activities and five Junior Colleges, 1 four year University and high schools throughout Wyoming. The museum is now partnered with a regional group, "Tracks Across Wyoming," which follows Interstate 80 through Wyoming where historical and educational sites are recognized.	First Term Airmen, Air Force Academy Cadets, International Military Cadets, Missile Maintenance Technical School at Kesler AFB, 20th AF Training School for JROTC students, ROTC, Civil Air Patrol, Star Base of Wyoming, T-7 Missileer Program, Laramie County Community College, University of Denver Graduate Program, Cheyenne Community/Western Nebraska Community College, Laramie County School Districts and surrounding School districts in Wyoming, Colorado and Nebraska. Scouts from the tri-state area. Leadership classes from the Cheyenne Chamber. Army and Air Force Guard Units, Warren's Spouse Club, Kiwanis of Cheyenne, Ducks Unlimited	Wyoming Travel Commission, Wyoming Historic Governor's Mansion, Cheyenne Depot Museum, Kiwanis of Cheyenne, Wyoming Guard Museum for Army and Air Guard, Community Veterans day celebrations, and Warren Military Historical Association, Partnered with the Cheyenne Area Museum Directors.	380,056	0	15

Appendix E

Selected Laws, Regulations, and Guidelines Relating to Cultural Resource Management and Military Museum Operations

There are many legal and ethical problems associated with the acquisition of historic artifacts. Because there has been widespread concern through the years that the cultural heritage of various nations might become lost, a number of laws have been passed to protect historic, scientific, and cultural objects throughout the world.

Several pieces of Federal legislation along with Department of Defense Regulations have a direct impact on the operations of Military Museums.

10 U.S.C. 2572.

16 U.S.C. 431-433 - 34 Stat 225 (1906 Antiquities Act).

16 U.S.C. 461-467 (1935 Historic Preservation Act).

16 U.S.C. 470-470w-6 (1966 National Historic Preservation Act).

10 U.S.C 489

Army Regulation 870-20.

Secretary of the Navy Instruction 5755.1A.

Marine Corps Order 5750.1H.

Air Force Instruction 84-103.

Marine Corps Order P5800.16.

Secretary of the Navy Instruction 4001.2G.

DoD 4160.21-M.
